STEEL

The Metalworking Weekly

EDITORIAL INDEX

VOLUME 160

January 1 to June 30, 1967

Subject Index 3

Company Index 14

THE PENTON PUBLISHING COMPANY

Penton Building, Cleveland, Ohio 44113

SUBJECT INDEX

A

Abrasives: See Grinding, Polishing

Adaptive Controls: See Machine Tools

Adhesives: See Joining

Aerospace:
1967 sales outlook, 1/2, p.25 and 75; 3/27, p.150; and 5/22, p.27
Imported machines move in to fill aerospace need: Lad Kuzela, West Coast editor, 3/27, p.66
Metal spinning tools for space age jobs: Automatic lathe simultaneously shears, spins and mills part surfaces, 3/6, p.58
Tough aerospace job requires unusual EDM approach, Tracer Corp., 2/13, p.85
See also Space Materials & Developments

Africa:
Aluminum mill equipment for S. Africa, 2/13, p.32
Continuous casting unit for S. Africa, 2/27, p.25
Copper, nickel found in Botswana, 3/6, p.31
Copper standards, 6/5, p.31
Firm makes stainless via new method, 2/20, p.19
Galvanized sheet plant ordered by ISCOR, 4/10, p. 32
Gold price raise a necessity, economic minister reports, 2/6, p.29
Mill scale used by refinery, 1/2, p.27
Rutile ore mined in Sierra Leone, 5/8, p.31

Aircraft:
AF C-5A: Lockheed-Georgia computer system helps managers subdue giant, 1/30, p.49
AF C-5A engines have titanium fan blade (fladé), and titanium fasteners, 2/6, p.27
AF C-5A wind funnel tests jet engine, GE facility, 6/12, p.27
Army's AH-56A (Cheyenne) combines helicopter vertical takeoff with conventional speed, 5/15, p.21
Army's AH-56A has titanium rotor hub-10 ft span, 6/19, p.25
Beechcraft 99 planned to service small cities, 5/15, p.19
Boeing 747, aluminum demands, 6/19, p.27
Coating filaments (boron or graphite with metal layer), tough composite for airplane parts, 4/17, p.90h
Europe's jet for short-range trips, airbus, 2/20, p.27
F-111 to try boron fiber reinforced plastic panel, 2/27, p.29
Fuel level control uses plastic; also re-usable wing tip fuel tank, 2/20, p.29
Germany's multipurpose passenger jet, 1/9, p.17
Helicopter handles cargo between inland and anchored ships, 4/3, p.17
Mach 3 turbo-ramjet developed by Nord, 5/8, p.88a
Nuclear aircraft revival? 6/12, p.19
Supersonic transport: A metalworking bonanza, Boeing's subcontractor team, GE engines (SST pic), 1/23, p. 53
SST prototype construction underway, 2/27, p.23
SST subcontractors activity, 5/8, p.19
SST go ahead lifts titanium hopes, pictured titanium impeller pump housing cast by Oremet (article), 5/29, p.52
SST delivery position fee upped, 6/12, p.23
SST: Metal-nonmetal panels, rivets for fastening, 3/6, p.64
SST: Outboard wing pivot section, 1/30, p.31
Scramjet engine to boost manned aircraft, 2/20, p.29
Titanium replacing aluminum and steel for extrusions at Harvey Aluminum, 2/20, p.104
Water jet propulsion, P&W, 2/20, p.31

Air Force:
Parts HERF formed, 4/3, p.89
Peterson (Materials Lab): Boron filament components for aerospace structures, 1/23, p.61
Seeks starting system, aircraft turbine engines, 6/26, p.23

Air Freight:
Surge in airfreight expected by 1980, 4/10, p.23

Air Pollution:
LBJ asks for legislation, 2/6, p.23
LBJ urges bill: Where there's smoke, there is about to be federal control, 2/13, p.87
A five year, $2.5 billion program urged on HEW, 6/19, p.19
Auto standards for air pollution control, 1969 (HEW), 2/13, p.23
Autos, pollution-free vehicle discussed at Cleveland meeting, 6/19, p.21
California tests auto exhaust controls, 2/13, p.23
Industrial air pollution control equipment sales, $235 million in 1966, 6/12, p.137
Industry blasts bill (steel, chemical, and paper manufacturing spokesmen before Senate hearing), 5/22, p.63

Airports:
City to airport time, overall system urged, 1/23, p.25
City to airport transport to feature Skylounge, 6/19, p.23
FAA funds for civil airports, 1/9, p.13
FAA estimates 1972 needs, 4/24, p.19
Shuttles passengers to planes, 2/27, p.32

Alaska:
Mineral resources dev., B. of M. report, 5/29, p.17

Alloy Casting Institute:
Barrel furnaces aided by cast alloy rolls (Cr 19-23, Ni 23-27), Phoenix Steel Co., 4/10, p.98d*

Alloys:
Alloy of ultrapure cobalt and iron, hot magnetic properties, 4/24, p.25
Aluminum alloys for sprockets, 6/5, p.64d
Aluminum bronze, tensile boost via dispersion hardening and fiber strengthening, 2/20, p.31
Cast alloy rolls for barrel furnaces, Cr 19-23, Ni 23-27, 4/10, p.98d*
Cast magnesium base alloy, high damping capacity, French report, 4/3, p.23
Casting alloys (copper-nickel-aluminum) studied at Northrop, 1/23, p.64
Copper alloy castings made impermeable by annealing, 5/8, p.88a
Custom alloy sales, 1/9, p.15
Delayed failure of alloys probed, NASA, 3/27, p.31
Investment casting, recommended alloys, 6/12, p.99
Nickel alloy (TAZ-8A) for turbojets, NASA, 3/27, p.19
Nickel and cobalt base alloys, AF study, 5/29, p.23
Russians invent aluminum alloy, 1/30, p.29
Space age alloys, some dos and don'ts, 5/8, p.78
Titanium alloys for tube market, 5/29, p.21
Titanium alloy has less creep, British, 6/19, p.29
See also Steel Alloy

Aluminum:
Aluminum joiner bulkheads for Navy, 6/12, p.65
Aluminum piercing combines forging and casting, 1/16, p.23
Solderable aluminum strip, zinc layer, 5/22, p.31

Aluminum Markets:
Aluminum surpasses copper in electric utilities market, 6/5, p.25
Titanium pushes aluminum as No. 1 market for C-5A transport, 6/5, p. 23
Transportation surpasses construction as aluminum No. 1 market, 6/5, p.23

American Iron & Steel Institute:
AISI general meeting: Notes of caution, projections of industry (article), 5/29, p.50
AISI medal, awards and recipients, 5/29, p.51
Coatings make steel look glamorous, 5/8, p.88b
Martin made chairman and chief executive, 4/17, p.21
Plans for international group, 6/5, p.32
Rep. Curtis challenges steel import survey, 6/26, p.17
Tariff levy urged by Worthington, 2/13, p.19
Tariff relief proposal, Kurt Orban views, 2/20, p.21
Tariff proposal-imported steel, reactions of Abel, Dirksen, Dent, 2/20, p.61

American Metal Stamping Assn.:
On-job training program, 1/2, p.32

American Production & Inventory Control Society:
Conference speaker (Hupp): Make your inventory dollars work harder, 6/19, p.64

American Society of Tool & Manufacturing Engineers:
Design show, highlights of conference, 4/17, p.61; industry-market report, 5/1, p.50; engineers pinpoint new trends, 5/22, p.27

American Welding Society:
Welding show, abstracts of technical papers, 4/10, p.60

American Zinc Institute Inc.:
Seminars across country: Zinc combinations are corrosion resistants, 6/5, p.27

Appliances:
Appliance sales forecast, 1/9, p.72
Appliance sales-market trends, 4/17, p.127
Convention comments: Appliance men size up new technologies, 5/1, p.68
Safety standards talk, 3/13, p.17

Argonne National Laboratory:
EDM sparks research, 6/26, p.70

Army:
Bullet jackets of copper clad steel, 5/1, p.27
Electrodeposited lead for bearings, swaging steel cylinder bores, 6/26, p.21

Assembly: See Fabrication, Assembly

Association of Consulting Management Engineers Inc.:
Shay: Man-computer systems needed, 1/16, p.17

Atomic Energy:
AEC: Liquid metal engineering center, 1/16, p.19
Irradiated wood-plastic combinations under study, 3/13, p.25
Isotopes map water resources, 1/9, p.19
Kryptonates make good tracers, radioactivity, 4/17, p.29
Nuclear powerplant orders in '66, 1/16, p.19
Nuclear reactors kept cool with giant pumps, 1/16, p.21
Nuclear rocket engine-materials, testing, 5/8, p.88d*

Australia:
Air conditioning, rockbed cooling, 5/8, p.31
Alumina production, Western Alum. Ltd., 6/19, p.32
Aluminum smelter, New South Wales, 1/30, p.27
Bauxite mining, tonnage, 6/19, p.32
Chromate deposit, 2/20, p.25
Copper smelting and refining process (Worcra) dev. for CRA, 4/17, p.65; pilot tests, 3/6, p.23
Converts low grade copper ore to copper, adds autotrophs (bacteria), 6/5, p.25
Firm arcwelds galvanized sheet metal without destroying coating, special filler metal, 6/19, p.31
Funds sought for development projects, 4/24, p.31
GMH finances ventures, 3/27, p.32
Home industry 'frozen out' of defense supply and re-equipment program, 4/10, p.32
Iron ore to European mills: Broken Hill Pty. has surplus pig iron, 2/20, p.25
Iron ore project, Mt. Whaleback in western Australia 4/17, p.32
Iron ore sources checked by U. S., 1/30, p.32
Lysaght mill to prepaint steel coil, 3/13, p.28
Nickel deposits, Kambalda, 4/3, p.25
Nickel deposits, Queensland, 1/9, p.17
Pelletizing plant at Dampier, 2/6, p.32
Radioactive residue, recovery possible, 5/8, p.29
R&D funds $36 million, 5/8, p.31
R&D subsidy red tape, 6/12, p.32
Scrap export ban irks merchants, 6/12, p.21
Uranium export control, 4/24, p.31
Vanadium deposit, Jamieson Range, 3/13, p.28
Zinc refining plant at Cockle Creek, 1/16, p.27

Automation:
Automatic machine makes bearing races from strip, Torrington Mfg., 6/5, p.52
English automated smelting plant, lead-zinc refining process, 5/1, p.84
Ford sold on independent cycling, Windsor engine plant, 4/10, p.98c*

Auto Show:
Chicago auto show — February, March sales key to spring production levels, 2/20, p.35

Automotive:
1966 sales, stability in car trends, 1/23, p.35
1967 problems, STEEL polls presidents: Ford's Arjay Miller, Chrysler's Boyd, AMC's Abernethy, 1/2, p.35
1967: STEEL polls industry (safety issue, warranties), 1/2, p.75
1967: Spring upturn surprises sales executives, 5/15, p.30
1968 models readied, 1/9, p.33
1968 models: Carmakers document impossibility of meeting proposed standards: Timing schedules (chart) for Chryslers, 1/16, p.30
1968 production estimated, 6/19, p.35
Accessory demand, individual options, 3/13, p.30
AMC management shuffle: Evans or Chapin, merger talk, changes affecting suppliers, 1/23, p.34
Anodized trim for '68 cars, 1/9, p.13
Antitheft devices for Big Three (testimony before Senate subcommittee), 5/8, p.35
Antitheft device on '68 GM cars, 4/10, p.37
Austerity becomes autodom's byword, budget cutbacks, 2/13, p.35
Auto foundries bigger, better, 4/10, p.75
Budd guards against product liability, 3/6, p.67
Chevrolet stamps grilles faster—with synchronized control, 1/16, p.49

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment*

Chevrolet straightening machine also inspects pinion shafts, 3/20, p.73
Chrysler—tighter profit pinch ahead? 2/27, p.35
Chrysler researcher (Elgass) looks to 1980, car production estimated by type of vehicle, 6/19, p.35
Electric car, approach at Chrysler (hybrid system), 3/6, p.25
Electric car debate, key issues, 3/27, p.35
Electric city car, Ford's Comuta prototype, 6/19, p.21
Electric cars researched, Japanese firms, 6/26, p.71
Electrical systems revamped, integrated circuits, 3/6, p.35
Experimental cars at auto show, 2/27, p.37
Ford eddy current test, transmission shaft seams, 6/12, p.68
Ford predelivery and storage centers, 5/15, p.31
Ford pushes multifaceted service program, 3/20, p.35
Ford readies EB welder for production, 4/24, p.35
Ford sold on independent cycling automation, Windsor engine plant, 4/10, p.98c*
Ford takes new machining approaches, Lima, Ohio, engine plant, 4/10, p.35
Foreign steel taboo, 1/23, p.19
Foreign steel use (bars, sheets, strip), Battelle report, 4/3, p.23
Future designs, Ford's seating buck a forerunner, 6/5, p.64b
Future interior designs, Ford, GM reactions to safety issue, 6/12, p.35
Futuristic transport: Pneumatic tires for city driving; automatic guideways for commuting, 6/19, p.25
GM to use plated plastics, 1/23, p.29
GM's Hydra-Matic Div. uses fluidics control feeding on machine tools, 6/12, p.76
Headlamp tests, Chevy, 5/15, p.31
Japanese diemaking laser, 8/8, p.27
Japanese parts shipments to U. S. (JAPIA report), 2/6, p.35
Plastic fender liners, 2/13, p.37
Plastic gas tank coatings needed (pollution standards), 3/6, p.37
Pollution-free cars, GM research for Univ. of Pa., 5/29, p.17
Radiators, coppermen brace for battle, 6/5, p.34
Recreation vehicle sales up, 4/10, p.37
Rotary engine dev. by New Zealander, 2/6, p.27
Safety agency report to Senate committee, future standards, 4/3, p.29
Safety men ask: Shoulder harness hazard, submarining of occupant, 5/15, p.31
Safety's impact on profits: How long will it last? Henry Ford speaks on federal involvement, 5/29, p.29
Safety standard leadtime stressed by Townsend (Chrysler), 5/29, p.30
Safety tires, Posi-Trac, 4/3, p.31
Sports car (SSK two-seater), 2/13, p.37
Steering wrist-twist system, 1/30, p.37
Teletrans baggage handling, novel rapid transit system, 2/6, p.34
Tire production concepts: Readying for radials, 6/26, p.31
Truck leasing popularity, 1/23, p.27
UAW-local strikes, where they hurt most (Ford, GM, Chrysler plants), 4/17, p.35
UAW-Reuther promises repeat-performance of 1964 negotiations, 5/1, p.35
Vehicle retarder studied at Cornell Lab, 5/15, p.31
Wankel engine (Germany) for Sept. showing, 5/8, p.37
Warranty pressures, autodom sweats under heat, 1/30, p.35

Awards:
Alcoa award to Auburn Univ. senior, packaging design, 4/17, p.31
GDIFs design contest winners, 1/2, p.127

B

Balance of Payments:
Commerce asks less dollar drain, income from foreign affiliates, 6/12, p.19

Battelle Memorial Institute:
Auto use—foreign steel, 4/3, p.23
Coating filaments of boron or graphite with layer of metal, tough composite for airplane parts, 4/17, p.90h
Fiorentino reports hydrostatic extrusion, 5/1, p.54
Metal seal and tube connector for AF rocket propulsion fluid systems, 5/15, p.25
Microencapsulation report, 2/20, p.32
Pacific Northwest Lab, magnetic force welding tames exotics, 1/30, p.61
Polymer resists 1000 F, 5/1, p.27

Batteries:
Lead-zinc battery predicted, 6/12, p.25
Magnesium battery packs power: Magair (GM device) dev. for Marine Corps, 5/29, p.19

Bearingmakers:
Industry report, 2/13, p.126
Miniature bearing producers, market forecast, 5/15, p.90

Bearings, Bushings:
Automatic machine makes bearing races from strip, Torrington Mfg. dev., 6/5, p.52
Bearings for Polaris missile, 4/17, p.88
Bearing handles BOF expansion-friction problem, 1/2, p.27
Coated cast iron bearings, wire flame sprayed, 2/27, p.80
Lubricating roller or ball bearings for high vacuum use improved, NASA, 5/29, p.21

Benders: See Forming, Bending

Blanking: See Stamping

Blowing:
Blowing parts from bubbles, Ilikon metal mold blowing process, 1/23, p.49

Bonding: See Joining

Books, Booklets:
Directory of Federal Statistics for Local Areas, 1/23, p.27
Job entry training program shop theory, NMTBA, 1/23, p.72

Brazing:
Silver-palladium alloys recovered after spray brazing, sludge removed, 4/24, p.25

British Iron & Steel Research Assn.:
Fine wire welder handles high carbon wire, 5/1, p.25
Radar checks blast furnace level, 6/26, p.27

British Iron & Steel Federation:
Steel service centers increase, 2/20, p.25

Bubble Forming: See Forming

Building Materials: See Construction Materials

Bureau of Mines:
Aerospace metals coating, 5/22, p.29
Alaskan mineral resources, survey, 5/29, p.17
High energy rates extrude tungsten powder billets into rods and sheet bars, 5/1, p.27
Mineral extractions from Great Salt Lake, process dev., 4/3, p.19
Ore reserve estimates are upped (copper, zinc, lead), 5/15, p.19
Predicting flame characteristics, concentrations of nitrogen oxides and carbon monoxide in combustion gases, 6/5, p.27
Titanium electrowinning research at Boulder City lab, 6/5, p.55
Ultrasonics speed electrolytic deposition of copper alloys on steel, experiments show, 5/29, p.19
Underwater search for gold, etc. off Alaska, Oregon, Calif., 5/15, p.23

Business & Defense Services Adm.:
Dutyfree import for educational scientific articles for nonprofit institutions, 2/6, p.23
Refined copper release planned, 1/9, p.12

Business (Economy):
1966 boom tough to follow, 1/2, p.69
1967 . . . critical choices, 1/2, p.85 S-1
1967: President's economic report, 2/6, p.7
1967 world business outlook, Chase Manhattan Bank, 1/30, p.25
Business adjustment, what shape, how long (chart-production growth), 1/30, p.7
Gordon (Bache & Co.) addresses symposium, 2/6, p.25
Economy slowdown not over (1st Nat'l Bank exec.), 5/22, p.27
Equipment sales pick up, 5/15, p.7
Metalworking, 1st quarter, 4/24, p.7
Metalworking, what managers expect in 2nd half, 6/5, p.45
NAPA reports slowdown, 5/29, p.15
STEEL's Panel, semiannual survey: Economy not strong enough for tax hike, 4/3, p.58
STEEL's panel downshifts its 1967 outlook, 4/3, p.7

Business Machines:
Industry checkup, BEMA's Smith reports, 2/6, p.96
U. S. foreign trade in machines, 6/12, p.137

Business Meetings:
How much do your meetings cost? Statistics furnished by 3M Co. and United Air Lines, 5/8, p.64

C

Canada:
Auto pact aids U. S.-Canada trade, 4/3, p.15 and 6/5, p.35
Economy growth, 3/13, p.28
Tolls on Welland Canal not welcome to steelmakers, 4/3, p.21
UAW may use wage parity pitch, 1/16, p.17

Cans, Canmaking:
Aluminum can rectangular, dubbed RingSide, 6/12, p.21
Cans of soldered tin plate forecast, 1/2, p.100
Composite cans (aluminum foil, plastic film, and paper) forecast, 3/13, p.25
Pepsi shifts to aluminum cans, 3/13, p.27
Side seams on aluminum cans welded ultrasonically, 5/29, p.25
Tinfree steel lowers cost, 5/15, p.17
Ultrasonics join lap seam in aluminum can, 1/23, p.29

Capital Expenditures:
Capital spending, 1st half (NICB), 3/30, p.102
Capital spending, 2nd quarter (Commerce Dept.), 6/19, p.7
Chemical industry, 2/6, p.23
Railroad equipment, 6/26, p.97

Carbon Steel:
Melt analyses for carbon content aids foundries, 2/27, p.80e

Casting Alloys: See Alloys

Casting, Castings:
Automated billet handling on semicontinuous brass casting unit (Loma system supplied by Hill Acme), 2/27, p.74
Automated billet machine design: Continuous casting moves into new era, 3/13, p.58a
Continuous casting bar mill, Calif. firm, 2/13, p.32
Continuous casting hollow copper billets, Halstead, 3/27, p.126g
Gazal process for desulfurization of iron, 1/2, p.32
Investment casting via computer, Hitchiner Mfg., 2/13, p.94
Investment casters tally gains of recent years: Casting Engineers (C. H. Porter) report, recommended alloys for a few applications, 6/12, p.99
Investment casting, closer tolerances, 5/8, p.31
Leadtimes halved on prototype castings using Full-Mold process (Bullard), 3/6, p.69
Preformed ceramic cores tame complex castings, 3/13, p.58d
Shaw process at Avnet, precision cast sprockets, 2/6, p.68f*
Shaw process at Boeing to cast hot ironing dies for titanium aircraft structurals, 6/12, p.106u*
Swing forge at Roblin ties in with continuous casting unit, 2/13, p.80
Tailormade grain size experiment, 3/20, p.25
Titanium castings for SST (article), 5/29, p.53

Ceramics:
Ceramic (lead metaniobate) aids ultrasonic probe of ocean depths, 5/20, p.23
Freeze dried ceramics, Bell Lab., 5/29, p.23

China (Red):
Red China, STEEL Feature, 2/20, p.50
Factory officials work on production lines, 1/23, p.23
Steel rolling mill bids, Western European firms, 3/27, p.19

Chromite Ore:
Market report, 3/6, p.112

Clad Metals:
Copper clad steel for bullets, 5/1, p.27
Explosive clad chemical vessels, 5/22, p.27
Russian tech. for making clad metals in multiple layers features electroslag welding of billets before forming, 5/15, p.29

Cluster Mill: See Steel Mills

Coal, Coke:
Electronic weighing, load cells heart of system, 6/12, p.106b*
Foreigh steel mill purchase of coal, 3/13, p.19

Coatings: See Finishes, Coatings

Cobalt:
Stockpiles sufficient for users; Belgian company discourages buying from Congolese, 1/16, p.15

Coding:
Coding (classification of purchased part and material stock) cuts costs and confusion, 2/27, p.69

Coil Tilter: See Material Handling Equipment

Colleges:
Are grads ignoring the business world (young managers article), 6/12, p.59
What college grads want: Dr. Endicott (Northwestern), 6/26, p.19

Company Operations:
National-Standard: How domestic wiremaker combats import threat with diversification, 2/27, p.70

Companies in Transition:
3. Granite City Steel guards its gateway, 3/20, p.57

Components:
Inventories, 1st quarter, 1/30, p.90
Inventories, 2nd quarter, 5/1, p.114

Composites:
Composites increase load bearing life, NASA report, 6/12, p.106e*
Composites men find more questions, more answers, 5/29, p.48
Emergence of composites (aerospace) hastened by gains in materials, fabrication (boron filaments), 1/23, p.61
MIT research, eutectic alloys, 5/22, p.31

Computers, Data Processing:
See also Steel Mill Controls
Airco: Design waste out with data search system, 6/19, p.69
Alling-Lander: Gear manufacturing cost cut by internally programmed ledger card system, 6/19, p.82
American Bosch: How to groom a computer for the management team (Abound-electronic data collection) 1/16, p.52
Armco computer routes messages, 6/26, p.21
Automatic scanning, magic of laser (developing tech.), 1/2, p.107
Automaker uses process control to check wiring, 5/8, p.25
Bendix-press shop: Central control production system, 4/24, p.63
Chrysler's computer (DIAS), Dynamic inventory analysis system, 6/26, p.62
Computer dilemma facing small business and educational institutions, 3/27, p.126d

Computer evaluates pipe stresses, 2/13, p.27
Computer expands from power to process control, B&W, 6/12, p.63
Computer graphics, developing techniques, 1/2, p.107
Computer graphics for preparing control tapes for NC, 4/3, p.70b
Computer memory array, welded by electron beam, 2/13, p.98
Computer prints Braille, 6/26, p.21
Computer simulation speeds installation of large machinery (Westinghouse), 1/30, p.64c*
Computer simulates on production line (Rocketdyne), GPSS applied also to assembly, 4/17, p.98a*
Computers used by top 100 users, 2/20, p.23
Corporate planners need man-computer systems, 1/16, p.17
Customer receives copy—as computer updates order status weekly, Kaiser Aluminum Newark, O., plant, 4/3, p.64
Desk computers speed quotations on bids, 2/20, p.56
Digitizer converts photo to data, 6/12, p.29
EDP discussed at distributors' meeting, 5/8, p.19
EDP Industry & Market Report, 6/5, p.23
EXAPT, new NC program automates tooling, speeds, feeds: Association (Germany) formed to administer; conference on European developments in manufacturing technology, 5/15, p.60
GE computer eases operation of sheet metal job shop, Phoenix, 2/13, p.96
GE's time sharing service includes readouts for digital plotting, 6/26, p.21
Hotpoint's nationwide computer system, 3/13, p.50
Illiac IV, experimental computer at Burroughs, 2/27, p.29
IBM explores control of tools by computer, 6/5, p.56
Lockheed-Georgia computer aids managers producing giant AF C-5A, 1/30, p.49
Lockheed looks to 'universal' computer: IMPAC — computerized management technique, 5/22, p.69
Machinability data based in a computer, North American and GE, 1/30, p.64c*
Machinery dealers may pool sales data on computer, 6/12, p.138
Olivetti computer program, clay models to finished body dies, 1/9, p.43
PSL, new programming systems language (CEIR development), 4/17, p.25
Phone line data transmission, coded characters, 5/22, p.23
Utility bills monitored by computer, 5/22, p.23
Vendor data for engineers, designers, PAs: Visual Search Microfilm File Data Service, 6/26, p.73

Construction:
Metal building makers eye 20-year coating, 5/15, p.50
Plastic coated steel use, 2/6, p.68e*
Rigid urethane foam arch, 3/27, p.25
Space frame (dome) less fasteners, Triodetic, 3/13, p.25
Spider web supporting roof takes worry out of being close—to post (Madison Square Garden Center), 2/6, p.57
Steel pre-engineered structures grow, 2/6, p.32

Construction Equipment:
Firms push for price hike, industry report, 6/19, p.111
Highway fund cuts affect market, 3/6, p.120

Containers: See Packaging

Controls:

Dr. Chamberlain (Yale): Will industry be forced into education (recruiting), 2/13, p.25

Electric Power:
Geothermal steam to generate electricity? 2/27, p.29

Power plant in the Arctic (SNAP), radioisotopic generators dev., 5/15, p.21
Research fuel cell powerplant using natural gas, 2/20, p.32
Silicon rectifiers supply power for arc air gouging of castings, Blaw-Knox, 4/17, p.98b
Train cable links control systems, Chicago elevated, 4/17, p.90c

Electrical Discharge: See Machining

Electrical Equipment:
Industry - markets report, 3/27, p.152

Electrocoating:
GE Meter Dept. uses electrocoating process (a synonym for electrophoretic deposition) using water based paint instead of metal, 6/12, p.91

Electrodeposition: See Metal Deposition

Electrodes:
Graphite electrodes sparked by electric furnace growth at Carborundum, 5/1, p.69

Electroforming: See Forming

Electrohydraulics:
Electrodeposited metals harvested with electrohydraulic 'shaker' (stripping of metal from cathodes), 1/23, p.58

Electron Beam: See Welding

Electronic Industries:
Electronics exports, 1966, 5/22, p.25
Integrated circuit sales up, prices drop, 3/20, p.103
Sales outdo 1966, 6/19, p.112

Electronics:
Computer checks out electronic circuits, IBM, 3/13, p.21
Consumer electronics might rival autos (Sarnoff), 6/19, p.23
Detroit revamps electrical systems, integrated circuits, 3/6, p.35
Electronic coal weighing system, Cardinal Power Station, 6/12, p.106b*
Electron microscopes, quality control, 5/29, p.41
Electronic shears cuts steel, 6/12, p.106a*
Integrated circuit frames stamped cheaper with carbide dies, Hydro-Cam Engineering, 2/27, p.63
Integrated circuits, masks made automatically, 4/3, p.25
Integrated circuits (typewriter "o" size) contain complete subsystems on single silicon chip, 3/27, p.29
Microwaves check moisture of mold sand, British, 6/19, p.27
Microwaves via gallium arsenide (Bell lab), 2/6, p.29
Semiconductors: Glass bonds, tungsten probe, 2/20, p.29
Solid state circuit-lights, RCA, 6/26, p.23
Sputtering speeds integrated circuit output, 3/27, p.31
Superconducting logic element switches in less than 500 picoseconds, 3/13, p.21

Electroplating, Plating:
Aluminum ion plating, atom fuel elements, 4/24, p.29
Barrel plating: A 1 man operation, 1/16, p.58
Flame plating engine crankshaft sleeves, 1/23, p.32
Ion plating report, NASA; 3/27, p.31
Plating costs leapfrogged (Abbey-Matic system), 2/20, p.64
Plating copper onto aluminum rolls, innovation for engravers, printers, 3/6, p.86a
Speed plating, developing technologies, 1/2, p.113
Thin metal plating on complex shapes, ion plating tech. at NASA, 5/29, p.19
Vacuum evaporation steel plating, 1/30, p.27
Vacuum plating vs. electroplating, 3/13, p.23

Electrostatic:
Electrostatic powder system for ladeling (Mitsubishi), 2/13, p.19
Electrostatically removing excess paint, 5/15, p.55

Employment, Unemployment:
1967 forecast, 7.5 million more jobs, 1/2, p.31

Conference on employment problems; Open housing urged, 6/12, p.19
Job ad index down, NICB report, 3/13, p.21
Job redesigning boosts productivity, BLS reports, 4/10, p.19
Laid-off workers search new jobs within one day, 2/20, p.21
Student summer jobs fewer in metalworking, 4/3, p.15
Workers still in short supply, 1/23, p.7
World job market emerging: Cassell, U. S. Employment Service, 5/22, p.25

Engineers, Technicians:
Salaries offered '67 grads, 1/9, p.13
See also Design Engineers

Engraving, Printing:
Innovation for plating copper onto aluminum rolls, 3/6, p.86a

Europe:
Brussels-steel sales syndicate approved, 1/9, p.73
ECSC sees steel production decline, 1/16, p.17
EEC collective bargaining, 1/9, p.12
EEC petroleum market outlook, 1/9, p.19
EEC steel usage forecast '70, 2/13, p.31
EFTA purchases 18% of world commodity imports, 1/30, p.21
Europe's philosophy of production does not follow the U. S. concept, 6/12, p.94
Labor changes forecast by Copp (Ford), 5/29, p.17

Executives: See Management

Exotic Metals:
Industry seeks help (mergers, new capital), 2/27, p.19
Magnetic force welding tames exotics, 1/30, p.61

Explosives: See Forming & Bending

Exports, Imports: See Foreign Trade

Extrusion:
Cold extrusion's hot new look (major parts produced at Ford), 4/24, p.56
Gas gun extrudes brittle metal, British, 6/19, p.27
High energy rates used to extrude tungsten powder billets into rods and sheet bars, 5/1, p.27
High pressure forming sponsored in England, 5/1, p.54
Hydrostatic extrusion, Battelle reports, 5/1, p.54
Missile case roll extruded, 4/17, p.29
Molds rammed explosively, Czech source, 6/12, p.25
Superalloys extruded cold, Watervliet Arsenal, 2/6, p.27

F

Fabrication, Assembly:
Adhesive laminated metals shortcut fabricating costs, 1/30, p.56
Armco stainless CMC Type 303 cuts rejects in fabricating small parts, 3/13, p.25
Assembly via the 'round line', impact mounting fits resistors, valve holders, and other components into printed wiring panels, 4/10, p.31
Automatic assembly of plastic (Bakelite) receptacles on 24-station transfer machine, 5/1, p.92a
Computer applied to assembly, 4/17, p.98a*
Large machine tools assembled on plant site, 5/22, p.71
Ultrasonically staking plastics to metal, new assembly technique, 2/13, p.91

Facts & Figures:
Annual edition, 3/27, p.77

Farm Equipment:
Farm tractor, hydrostatic all-speed drive, 6/12, p.27

Fastener Industry:
Elco (fastenermaker) profits from molecular sieve generator, nitrogen for heat treat furnace, 5/15, p.58
Market outlook, 1/16, p.88 and 4/17, p.96
Market affected by auto slump, 4/24, p.96

Fasteners, Fastening:
Aluminum coated rivets for aircraft skins, foil corrosion, 4/17, p.27
Asymmetrical thread form adds fatigue strength of bolts, 5/29, p.19
Capsule adhesives hold fasteners, 1/9, p.12
Explosive power 'pill' drives fasteners into concrete and metal, 1/2, p.27
Fasteners exposed to marine and industrial environments studied by Council, 3/6, p.80
Ford's fastener concept assures uniform stress (nut and bolt design), 2/27, p.60
Guidelines when working with mechanical fasteners, Lamson & Sessions, 6/12, p.31
Hot-Tuf fasteners: Tool steel socket screws cut downtime on hot work die line, 3/20, p.76
Rivet tape-transparent, 4/3, p.61

Fibers:
Crystalline fibers cost $10 per pound, 5/22, p.21
Fibermet, new composite material, 2/27, p.29
Micron-size fibers measured via laser, 5/22, p.29

Filaments:
Boron filament components for aerospace programs, 1/23, p.61
Composites reported at Westec conference, 3/27, p.25
Filament machine completed, composite materials, 4/10, p.27
Glass filament-joint, research needed for missiles, 4/17, p.21
Graphite filaments, tensile strength, 4/17, p.29
High modulus filaments for metal matrix reinforcements, 3/27, p.126a
Metal-boron filament coating makes tough composite for airplane parts (Battelle report), 4/17, p.90h

Filters, Filtering:
Filtering extends coolant life in rolling aluminum, 2/20, p.27
Moving bed filters for waste treatment, 5/8, p.27

Financial:
Company earnings report (product-line revenue) opposed by MAPI, 6/5, p.21
Manufacturing firms, sales, after-tax profits for '66, FTC-SEC joint report, 4/17, p.27
Metalworking sales, earnings (chart), 2/20, p.9
Metalworking, 1st quarter, 5/1, p.7
Steel sales, profits up in '66, 2/6, p.19
Steelmakers show profit dip (U. S. Steel, Bethlehem, Republic), 5/1, p.19
Steelmakers' (22) earnings down 14.4%, chart, 5/8, p.88e*

Fine Blanking: See Blanking

Finishes, Coating, Paints:
Aluminum coated rivets corrosion proof on aircraft skins, 4/17, p.27
Auto coat, weldable lead phosphate, 1/9, p.34
Ceramic coating stands heat, 6/12, p.25
Coated panels for metal buildings eyed by industry, 5/15, p.50
Coating for aerospace metals, tungsten and molybdenum get platinum coatings, Bureau of Mines, 5/22, p.29
Electrochemical surface treatment for titanium (Canadizing), 1/23, p.29
Electrocoating at GE Meter Dept., 6/12, p.91
Electrostatic powder system for labeling (Mitsubishi), 2/13, p.19
Electrostatically removing excess paint, 5/15, p.55
Epoxy coat on underground pipe subverts corrosion, 5/8, p.71
Filaments coated with metal-boron for airplane parts, 4/17, p.90h
Flame spray protects edges of glass coated steel, 1/16, p.57
Liquid fluorocarbons upgrade paint, 1/9, p.19
Metal coated diamonds, market growth, 2/6, p.54
Paint industry, application moves to unconventional, 6/19, p.112
Phosphate conversion coating for steel, 1/9, p.34
Plastic coated steel, Cecoclad, 2/6, p.68e*
Spraying powders with Thermo-Spray gun, 4/3, p.60
Sprayed zinc coating studied, 5/1, p.27
Steel coatings glamorous, 5/8, p.88b
Strip coating gage, nuclear flores-coat system, at Ohmart, 6/5, p.54
Ultrathin plastic film, GE polymer coating, 6/12, p.29
Varnish blocks radioactivity, Warsaw report, 4/24, p.25
Varnish impregnation for motors, GE, 5/15, p.25
Varnish (polyester) for repairing motor windings, GE, 6/5, p.64f
Whirlpool painting facilities (flow-chart): Rooftop paint bake ovens solve space problem, 3/27, p.74
Zinc coatings, range of iridescent colors, 5/15, p.25

Finishing Lines:
Whirlpool rooftop ovens, Evansville painting facilities: Continuous flow of work between two floors, 3/27, p.74

Flame Cutting:
Flame cutting on giant scale, Reliable Steel Plate, 6/12, p.106a*
NC cuts time needed to cut plates for shipbuilding, 4/10, p.31
Ryerson tries superflame cutter, 4/3, p.57

Fluid Power Industry:
Geo. Doig hits 'immaturity' of industry? 5/8, p.118
Sales forecast by Hayden (Vickers), 2/6, p.98

Fluidics: See Instruments & Controls

Forecasters: See STEEL's Panel

Foreign Aid:
AID loan to Ghana, 6/12, p.32
AID loan for India, 5/1, p.32
AID loan to Turkey, 3/27, p.32
AID to finance used machine tools, 4/3, p.109
Council of U. S. business associations to advise on investment in underdeveloped nations, 3/27, p.21
Export-Import Bank loan, Chile and Mexico firms, 4/17, p.32
Export-Import loan, Tosho Printing, Japan, 4/10, p.32
Export-Import loan, Spanish steel producer, 6/19, p.32
IDA loans for India, Pakistan, 1/9, p.19
IFC loans available up to $20 million, 4/17, p.27
Pacific Basin plan, economic development between advanced and underdeveloped countries, 5/1, p.31
UN finances Bolivian tin process study, 3/6, p.23
World Bank loan, Colombia, 6/19, p.32

Foreign Competition:
1967—Test year for foreign steel in U. S. market? 2/6, p.58
AISI-Worthington urges levy on imports, 2/13, p.19
AISI proposed steel import tariff (the road to enactment), reaction from Abel, Dirksen, Dent, 2/20, p.61
AISI proposed tariff debated by Rep. Curtis, and J&L Beeghly (breakdown of Jan.-Feb. in net tons by countries), 5/8, p.23
Foreign forging plants competition, 3/6, p.19
Honeywell's Spencer: What's good for U. S. may not sell abroad (approaches to selling abroad; to Communist countries), 4/10, p.67
Latrobe's Workman: Specialty steel imports a problem for U. S. steel producers, 5/29, p.79
National-Standard: How domestic wiremaker combats import threat, diversification program, 2/27, p.70

Foreign Investments:
Booz, Allen surveys firms-overseas operations, 1/2, p.31
Direct investment for U. S. business urged by Keener at Goodrich, 6/19, p.23
Foreign subsidiaries gain, 2/13, p.23

Foreign Markets:
India offers investment incentive, 6/19, p.32
Indonesia protects foreign capital, 1/23, p.23
Italy, steel production up, 1/30, p.27
Japanese machine tool exports, major customers, 2/13, p.127
Pakistan seeks foreign investments in metalworking, 1/30, p.27
Thailand favorable for capital investment, 1/16, p.19

Foreign Trade:
Automotive foreign steel use, Battelle report, 4/3, p.23
Brazil-U. S. tax treaty, 4/3, p.25
British push exports to U. S., Lord Brown reports, 6/19, p.32
British steel for terminal at Kennedy Airport, 6/26, p.28
Cold finished steel bar imports low, 1/16, p.17
Exports, 1st quarter, 6/5, p.19
Foreign toolbuilders sales to U. S. (chart gives dollar value, Commerce report), 5/1, p.19
German exports to U. S. up, 1/16, p.27
Importers start 'watchdog' groups, committees study proposed laws, 6/26, p.19
Italian steel imports, tariffs upped by Treasury Dept. counteracts Italian subsidy, 5/1, p.19
Kennedy Round of world trade negotiations approach deadline, 4/24, p.53
Kennedy Round talks, nontariff barriers still stand, 5/22, p.21
Kennedy Round talks, tariff cut details fight June 30 deadline, 5/22, p.19
Nickel export curbs, Commerce Dept., 6/19, p.101
Rhodesian imports banned by LBJ, 1/16, p.27
Russia wants long term trade policy with U. S.: Scott (Black Clawson Ltd.) addresses AMA, 3/13, p.52
Specialty steel imports problem for steel producers, 5/29, p.79
Stainless imports high, 3/13, p.17
Trade lists (500) aid exporters, 4/3, p.17
U. S.—Eastern Europe and USSR trade in '66, 5/22, p.31
U. S.-Eastern European trade up, 6/26, p.19
U. S. exports to Canada up, 5/29, p.26
U. S. exports to Japan: 1975, 1/9, p.12
World trade symposium sponsored by Cutler-Hammer: Speakers (George Bell, de Seynes, etc.), 5/15, p.56
World imports countries, 2/6, p.31

Forging Industry:
Atkinson (FTA): Forgers can meet defense needs, 3/20, p.19
Cold forgings production up, 2/6, p.25
Forge shops, industry forecast, 1/23, p.86

Forging, Forgings:
Aluminum forgings, new data (Commerce Dept.), chart, 5/29, p.77
Ausforging ups tensile strength, 2/6, p.25
Dynapak pierces longer, thinner steel billets, 4/24, p.72d
Forging study (IIT) reveals how to upgrade process (metal flow in steel forgings), 1/30, p.59
Swing forge at Roblin, study gives green light, 2/13, p.80
Tape controlled forging machine for railroad axles at Standard Alliance; developed by Black-Clawson, 4/10, p.98b*
Titanium casting methods aids forgings at Wyman-Gordon, 3/6, p.23

Tool steel socket screws on hot work die line, cuts downtime, 3/20, p.76

Forming, Bending:
Adaptive springback control feature on NC tube benders, Pines Eng., 6/5, p.59
Adhesive laminated metals, a guide to forming, 1/30, p.56
Bladder forming laundry dryer drums, 2/27, p.57
Bubble forming, prospectus on a new metal mold blowing process (Ilikon), 1/23, p.49
Cold formed aluminum tubes, Alcoa's Yoder roll former, 1/16, p.17
Cold formed plastics (developing technologies), 1/2, p.121
Creep vacuum process at Boeing forms large titanium sheets, 5/22, p.72
Electroformed dies, 6/26, p.27
Electroforming, British copper wiremaking process, 4/17, p.75
Electroforming continuously, nickel strip, 6/19, p.29
Expansion forming, Russian tech., 5/15, p.27
Explosive forming industrial diamonds, 5/8, p.21
Explosive forming press (by LTV) will handle domes, 4/3, p.69
Explosive forming of tank turrets, 4/17, p.29
Explosive forming tank ends, Warsaw patent, 5/8, p.29
Gas detonation forming unit, GATZ, 4/3, p.69
HERF for Air Force projects, 2/6, p.25
HERF is moving rapidly toward production phase: Dr. Ezra, Martin Co., report, 4/3, p.69
High pressure forming, a formidable future: Dr. Bobrowsky report, 5/1, p.54
Hot-Tuf fasteners cut downtime on forming-forging lines (tool steel socket screws), 3/20, p.76
Inturgescent forming at Bendix: Hemisphere forming smoother via fluid method, 2/20, p.55
Magnetic forming units get standard features, 1/30, p.64d*
Spincraft: Metal spinning tools for space age jobs, 3/6, p.58
Stretched formed honeycomb panels at Stresskin, 3/27, p.126f
Urethane bladder stretch forms shrouds for jet engines, 2/13, p.29

Foundries:
Autodom's foundries bigger, better, 4/10, p.75
British foundry checks moisture content of clay bonded mold sand with microwave, 6/19, p.27
Bullard: Leadtimes halved on prototype castings using Full-Mold process, 3/6, p.69
Chrysler's computerized cupola, 6/12, p.31
Crawford Steel Foundry: Ten second metal analyses for carbon content while metal is still liquid, 2/27, p.80c
Disamatic molding machines in use, human error eliminated in precision core setting, 3/6, p.80
Ford's Patterson previews tomorrow's foundry, 2/20, p.31
Hitchiner Mfg.: Investment casting via computer, 2/13, p.94
Lebanon Steel Foundry: Preformed ceramic cores tame complex castings, 3/13, p.58d
Roblin Steel: Swing forge ties in with electric furnace and continuous casting unit, Dunkirk plant, 2/13, p.80

Foundry Equipment Industry:
Markets report, 4/3, p.107

Fractional Motors:
Market trend, sales readjustment, 6/26, p.98

France:
Aerospace exports soar, 4/10, p.32

Free Engineering:
Lovejoy Inc. (couplingmaker): Free engineering pays off, 6/19, p.72

Freight Cars: See Railroads

Fuel Cells: See Electric Power

Fuel Elements:
Ion plating of fuel elements with aluminum cuts radioactivity, 4/24, p.29

Fuels:
Ultrasonic device aids burning of kerosine and natural gas, 4/10, p.29
Welding fuel-MAPP gas, new oxy-fuel report, 4/10, p.27

Furnaces, Ovens (Heating, Heat Treating):
Barrel furnaces aided by cast alloy rolls at Phoenix Steel, 4/10, p.98d*
Continuous billet heating furnace aids decarbing, Latrobe Steel (built by Selas), 4/17, p.90e*
Conveyor rolls of new alloy cut furnace heating costs, Universal-Cyclops, 4/17, p.98f
Copperweld opts for computer furnace control, 1/30, p.55
Electric furnace control, "Eric" (energy rate input controller), 4/3, p.23
Fastener maker profits from molecular sieve generator; supplies nitrogen for heat treat furnace, 5/15, p.58
Heat-treating furnace (Alliance) saves by design (partition divides furnace in half; special refractory lining), 4/10, p.82
Slab scalefree furnace (Selas), special combustion tech., 6/26, p.76k*

G

Gages:
Adaptive control, IBM unit, 5/29, p.23
Strip coating gage (nuclear florescoat system) affects accuracy, installed cost at Ohmart, 6/5, p.54

Galvanized Steel:
Uses grow, autos, coil coating steel, etc., 5/8, p.88c

Galvanizing:
New electrogalvanizer hikes U. S. capacity 15%: Triumph Electro Corp.'s continuous line, Midwestern market, 5/15, p.52

Gearmakers:
Industry report, market trends, 1/9, p.70 and 6/19, p.110

Gears:
Gear takes powder metallurgy award, planetary assembly of 14 P/M parts, 5/22, p.32

Geothermal:
Udall reports geothermal resources in U. S., states named, 4/17, p.25

Germany:
Car and truck production '66, 2/13, p.31
Economy needs priming, 4/24, p.31
Steel crisis, W. Germany, 1/23, p.21
Steel mills operating in red, 4/3, p.27

Government:
Auto-air pollution controls, 1969 standards published by HEW, 2/13, p.23
BLS: Studies pension pools for small firms, 6/12, p.21
BLS: Work stoppages high, 6/12, p.19
Chamber of Commerce study business-consumer relations, 6/19, p.21
Commerce Dept.-Trowbridge meets with executives of nonferrous metal firms: New image, status ahead for Commerce Dept.? 6/12, p.65
Commerce (Trowbridge) appoints executive reserve to handle export-import trade and finance (BIC), 6/26, p.20
Commerce, Labor Departments proposed merger, pros and cons, 1/23, p.56; merger shelved, 5/15, p.17
Commerce asks less dollar drain, 6/12, p.19
Commerce studies marketing and distribution, 3/20, p.25
Commerce-trade lists aid exporters, 4/3, p.17
Foreign trade policy to be reassessed, 6/26, p.20
Gardner (sec'y-health, education, welfare) lists nine rules for business-renewal, 4/24, p.17
Human Investment Bill (job training funds), 2/27, p.19
Merger rulings, few attacked by Antitrust, 3/27, p.23
Patent laws proposed revision, 4/10, p.21
Rep. Perkins, chairman of House Committee, Education & Labor, 1/16, p.15
Pipeline (natural gas) regulation urged, 2/27, p.23
Rusk: Advisory committee for technological advances urged, 2/6, p.21
Safety agency (NTSA) makes report to Senate Commerce Committee, hints at future standards, 4/3, p.29
Safety standards may wreck small automakers, Sen. Bayh appeals, 4/10, p.23
Silver gap, action called for by Rep. Conte, 3/6, p.25
Strike study urged by Rep. Curtis, 3/6, p.25
Transportation Dept. to go beyond monitoring role, 3/20, p.27
Water pollution data sought, five committees, 4/3, p.19
Youth Opportunity Campaign, student hiring, 4/3, p.15

Government-Industry:
Case for: Better government-industry dialogue in defense planning (Carter, Wyman-Gordon), STEEL Feature, 5/1, p.47
Commerce Dept.'s Trowbridge meets with executives of nonferrous metal firms: New Image, status ahead for Commerce Dept.? 6/12, p.65
Commerce Dept. meetings: Dialog between business and government starts (Holloman sits in for Trowbridge), 6/26, p.15

Graphics:
Computer graphics, developing techniques, 1/2, p.107
Computer graphics used in preparing tape control for NC machining, 4/3, p.70b

Graphite:
Graphite electrodes, new market at Carborundum, 5/1, p.69
NDT of bulk graphite studied, 5/29, p.21
Pyrolytic graphite manufactured at Pfizer, 4/17, p.90

Gray & Ductile Iron Founders' Society:
Annual design contest winners (economies in material, weight, cost), 1/2, p.127*

Gray Iron Foundries:
Market report, 3/13, p.84

Great Britain:
Adaptive controls for steel mills, 6/26, p.28
Attempts halt of trained technical people, 'brain drain', 6/26, p.19
British looking into aluminum agreement, 1/9, p.72
British workers to sit on boards, 5/22, p.25
Exports to U. S. pushed, 6/19, p.32
Nationalized steel approved by House of Commons, 2/6, p.31
Steel urged to hike prices, 2/27, p.25
Steel production, 4/24, p.31

Grinding, Polishing:
Alloy resists grinding on lapping wheel, Carborundum plant, 6/12, p.106e*
Coated diamond grinding wheels, 2/6, p.54
High speed, high pressure grinding hikes output, wheel life at Norton (metal removal), 5/1, p.52
Making abrasives for grinding wheels: Zig-zag blender closes loop and solves moisture problem, 5/8, p.86
Snagging iron castings, 3/20, p.31
Vitrified bonded grinding wheels, Norton, 2/13, p.31

H

Heat Treating & Annealing:
Austempering pliers, furnace and salt bath give right combination of toughness and hardness, 6/12, p.63
Copper alloy castings rendered impermeable by annealing (Polish source), 5/8, p.88a
Cryoquenching faster with ice crystals in mixture, 3/20, p.29
Fastener maker (Elco) profits from molecular sieve generator which supplied nitrogen for heat treat furnace, 5/15, p.58

Heating Equipment Makers:
Industry report, 1/16, p.89 and 4/8, p.117

Heating Elements:
Radiant heating panels with steel foil elements, 1/23, p.31

Heat Exchangers:
Extruded aluminum heat exchangers on gasoline powerboat engines, 1/30, p.29

HERF: See Forming

Highways:
Asphalt roads need new pavers, 3/13, p.25
Boyd (Transportation Dept.): Highway go-it-alone era ends, 2/6, p.19
To sell to highway construction market, use NRC's data file, 6/26, p.20

Holemaking: See Drilling

Holograms: See Photography

Honeycombs:
Firm welds, stretch forms honeycomb panels, 3/27, p.126f

Housing:
Industry's stake in open housing to fill job needs, 6/12, p.19
Paper-polymer siding, 1/16, p.19

Hungary:
Boosting production of specialty steels, 4/10, p.32

I

IIT Research Institute:
Forging study reveals how to upgrade process (metal flow in steel forgings), 1/30, p.59
Particle size analysis, 2/13, p.29

Ideas:
Idea Fair (editorial), Steel Service Center convention, 5/15, p.13
Innovation in design—how do you know you need new ideas; how to pick people to produce ideas, 5/8, p.58 and 60

Imports: See Foreign Trade

India:
Bharat Forge Co., expansion, 6/26, p.28
Developing industry complex, 1/16, p.27
Ends controls on steel, price and distribution, 5/22, p.31

Induction Heating:
Induction scanning equipment, cost saver, 2/13, p.89

Industrial Conventions:
How much do your meetings cost (3M Co. and United Air Lines statistics), 5/8, p.64
Idea Fair (editorial): Steel Service Center Inst. promotes, 5/15, p.13

Industrial Diamonds:
Formed via explosive process, 5/8, p.21
STEEL Feature: Refinements boost diamond technology — growth markets, metal coated diamonds, 2/6, p.53

Industrial Distributors:
Making EDP systems mesh with suppliers-customers, 5/8, p.19

Industrial Heating Equipment Assn.:
Market report, nickel shortage affect, 4/8, p.117

Innovation:
How to hold back innovation, new ideas: Design Engineering Show feature, 5/8, p.57

Inspection, Testing:
Acoustic spectrometers check materials, 5/15, p.54

Alloys analyzed in a few seconds via new method, 3/13, p.17
Calibration time cut by interferometer, NBS, 1/30, p.31
Eddy current testing trims scrap losses at Tubotron, 3/6, p.57
Eddy current inspection of Ford's automatic transmission shafts, 6/12, p.68
Electron microscope, growth market in quality control, 5/29, p.41
Fluid amplifier tester, Univac, 1/9, p.23
Infrared thermography cuts heat failures, 1/16, p.23
Infrared checks tiny weld quality, optical fibers, 4/3, p.25
Nondestructive tests on adhesive joints may open up new jobs (tell bond strength), STEEL Feature, 3/27, p.59
Nondestructive test evaluates spotwelds (Arvin), 1/16, p.57
NDT of bulk graphite studied, 5/29, p.21
NDT seen better with TV (Argonne National Lab), 4/17, p.82
Ultramicrometer measures short distances, NBS, 3/6, p.31
Ultrasonic monitoring of spotwelds while being made, 3/27, p.72
Ultrasonic weld test speeded by coaxial device filled with distilled water, 2/27, p.31
Ultrasonics check resistance welded tubing, 4/3, p.28
Ultrasonics speed electrolytic deposition of copper alloys on steel, B. of M. report, 5/29, p.19

Institute for Machine Tools & Manufacturing Technology:
EXAPT, new NC program automates tooling, speeds, feeds, announced at conference of European developments, 5/15, p.60

Instrument, Control Makers:
Market report, 4/10, p.134

Instruments & Controls:
Accelerometer uses magnetic fluid, 2/20, p.32
Fluid power firms eye fluidics, 6/19, p.25
Fluid power problems twofold: Rocco (Mesta) addresses seminar, 6/12, p.21
Fluidics — appliance industry breakthroughs, 5/1, p.69
Fluidics enters 'shakeout' phase in machine tool control: Ross, A. T. Kearney & Co., 6/12, p.75
Fluidics (developing techniques)—will it pay to switch, 1/2, p.111
Fluidics control liquid level in glass containers, 5/29, p.21
Fluidic control for glass press, 2/13, p.27
Fluidic devices control 'fluidic' production at Corning Glass Works, 1/2, p.128
Fluidic memory displays what it remembers, 'flip-flop', 6/19, p.29
Fluidic system, AF flight tested, 6/26, p.20
Gamma rays check level in zinc smelting furnace, 5/8, p.69
Minuscule signal runs pneumatic control valve, 5/8, p.66

Insulation:
Thermal insulation with Cera-paper, 5/15, p.55

Inventories:
Components, 1st quarter survey, 1/30, p.90
Components, 2nd quarter, 5/1, p.114
Steel users inventory slide controlled, 3/6, p.7
Steel mill products, 1st quarter, 3/6, p.111
Steel mill products, 2nd quarter, 6/5, p.95

Inventory Control:
Coding of purchased part and material stocks cuts costs and confusion, 2/27, p.69
Computer program, North Amer. Aviation, 1/16, p.20
Conference speaker (Hupp): Memo to top manager—make your inventory dollars work harder, 6/19, p.64
DIAS (Dynamic Inventory Analysis System), Chrysler computer, 6/26, p.82

Investment Casting: See Casting

Ironmaking:
D-LM process (Dwight-Lloyd McWane): Ironmaking without a blast furnace, 2/6, p.68
Pig iron mixer of special design, Sweden, 4/10, p.31
Tin speeds graphitization of cast iron, 3/27, p.27

Iron Ore:
1966 Great Lakes shipments, 1/9, p.62
Australian project, Mt. Tom Price, 1/16, p.20
Belgian engineer reports ore crushing method, heating in electromagnetic field, 1/30, p.29
Blast furnace stocks of iron ore, 1966, 2/20, p.94
Mexico surveys deposits, 5/29, p.26
Scrap upgrades taconite ore, 1/30, p.29
Sweden to get pelletizing plant, 6/5, p.31
U. S. rutile ore sources sought by OEP, 1/30, p.21

Iron Powders: See Powder Metallurgy

Isostatic Pressing:
Isostatic pressing: A breakthrough in the making? STEEL Feature, 3/6, p.51

J

Japan:
Auto market gain, 4/17, p.25
Auto part shipments to U. S. (JAPIA report), $25 million is '67 goal, 2/6, p.35
Charge 'Buy American' restrictions on imported products, 6/19, p.25
Electric cars in research stage, four firms, 6/26, p.71
Hitachi Ltd., laser speeds 3-D layouts, 6/19, p.29
Japanese quality moving up on U. S.—fast (article), 6/19, p.62
Kawasaki Steel-Chiba Wks, iron powder production, 1/16, p.23
Kawasaki information system, 1/30, p.27
Kobe Steel Wks., solderable aluminum strip, layer of zinc, 5/22, p.31
Merger for Fuji Iron and Tokai Iron, 4/3, p.27
Mitsubishi electrostatic powder system used in labeling, 2/13, p.19
Nippon Kokan cancels Canadian coal contract, 5/22, p.31
Residential construction, apartments on uptrend, 6/19, p.21
Shipbuilding, industry report, 6/5, p.25 and 6/12, p.32
Shipbuilding, Japan world leader, 6/26, p.17
Soviet order for machine tools, 1/16, p.28
Steel, domestic demand, 6/12, p.32
Steel export uptrend, 1975 forecast, 2/20, p.21
Steel exported for U. S. trade building, N. Y. 6/19, p.100
Steel product import output hiked, 2/27, p.21
Steel labor shortage acute, 3/27, p.32
Steel usage up, 1/30, p.25
Tokai Iron, Axial-flow steam turbine blower, 6/26, p.71
U. S. exports to Japan: 1975, 1/9, p.12

Job Shops:
GE uses computer system at sheet metal job shop, Phoenix, 2/13, p.96
Philco-Ford, WDL Div.: Three NC units key up job shop productivity, 5/1, p.72
Plating job shops, industry report, 5/22, p.108

Jobs: See Employment

Joining:
Adhesives, developing technologies, 1/2, p.104
Adhesive holds refractories, Cerama-bond 503, 4/10, p.29
Adhesive laminated metals shortcut fabricating costs, a guide to forming, joining (chart), 1/30, p.56
Adhesive strength dev. using controlled surface contamination, 5/15, p.54
Capsule adhesive hold fasteners, 1/9, p.11
Bonding process for plastic parts (TFE), 5/1, p.27
Diffusion bonding, surge in usage by industry, government, 1/2, p.117
Diffusion bonding titanium sheets, North Amer. Aviation, 1/16, p.15
Diffusion bond for jet blades, Boeing, 5/22, p.29
Flame spray bonding powder, 4/3, p.60
Infrared soldering bonds cables, 3/6, p.27
Joining brass alloys with soldering, welding, diffusion bonding, 3/6, p.29
Magnetic force welding tames exotics (joining sintered aluminum powder and other dispersion strengthened alloys), 1/30, p.61
NDT on adhesive joints tell bond strength, STEEL Feature, 3/27, p.59
Swaging joins aluminum pipeline, 2/13, p.27

L

Labor:
AWIU (aluminum) to cooperate with USWA, 5/8, p.27
Critical choices 1967: Labor contracts, stand or submit (STEEL Feature), 2/13, p.73
ISST applies for AFL-CIO membership, 1/23, p.25
Labor settlements, BLS data, 2/13, p.23
Labor settlements, 1st quarter (increase of wages and benefits), 5/29, p.5
Mine-mill group merges with USWA, 1/23, p.19
Railroad dispute, Johnson names panel, 2/6, p.21
Railroad strike, dangers cited, 4/17, p.19
Segregation clause for contractors ordered by Wirtz, 5/22, p.25
Strike control legislation distant, consultant predicts, 1/30, p.19
Strikes-manhours lost, 1/23, p.19
Strike idleness, 1st quarter, 5/22, p.25
Strikes, lockouts (work stoppages), BLS data, 6/12, p.19
Truckers may seek rate relief, 4/3, p.15
Unions' target, teachers and government employees, 2/13, p.25

UAW: 1967 outlook, salary workers 1/2, p.71
UAW labor talks, key issues shape up, 1/23, p.57
UAW Reuther faces critical choice (appearance at Miami meeting), 2/6, p.23
UAW Reuther pushes profit sharing, 2/27, p.19
UAW-Reuther leads same old cheer: More (like 1964 negotiations), 5/1, p.35
UAW demand, guaranteed annual wage, 3/20, p.23
UAW skilled tradesmen want test of management rights delegates at Atlantic City, 3/27, p.63
UAW (Stutzman-Local), 30 years and out program, retirement-pension, 3/27, p.63
UAW-local leaders get set for tussel, where strikes would hurt most (plants of GM, Ford, Chrysler), 4/17, p.35
UAW-parts workers seek portable pensions, 4/10, p.37

Labor Costs:
Labor cost increases, demands climbing, 3/27, p.7
Mutual Fund estimates steel industry labor cost index, 5/8, p.77
U. S. and European labor cost comparisons: Europe's philosophy of production does not follow the U. S. concept, 6/12, p.94

Labor-Management:
Federal Mediation & Conciliation Service seminar: Day (GE) speaks on collective bargaining, 1/16, p.15

Labor Shortage: See Skilled Labor

Lake Carriers' Assn.:
Ask ICC aid, coal transport by railroads, 3/27, p.23

Lasers:
Argon gas laser, RCA, 2/13, p.31
Automated laser welding and machining dev. of future, 6/5, p.29
Building sites surveyed via laser, 3/20, p.27
Developing techniques: Magic of laser speeds data gathering, 1/2, p.107
Technique improves laser measure at Sandia, minute changes detected, 6/5, p.29
Laser speeds 3-D layouts, Hitachi Ltd., 6/19, p.29
Injection laser displayed, 3/27, p.29
Laser alignment systems, 5/15, p.54
Laser beam helps align cyclotron, steel slabs, 3/27, p.31
Laser drills glass, 1/30, p.29
Laser holograms can aid world patent search system, 6/19, p.21
Liquid laser emits rainbow hues, 4/10, p.29
Micron-size fibers measured via laser, 5/22, p.29
Photodetector for laser signals, Bell Lab, 4/24, p.29
Semiconductor laser produces radiation patterns with vertical bands, 3/6, p.29
Surgeons use, 5/15, p.27

Lead-Zinc:
Lead-zinc producers cite near, long term problems, 4/17, p.126
Soviet lead-zinc concerns Europe, potential surplus, 4/24, p.23

Lead-Zinc Research Organization:
Sprayed zinc coating studied, 5/1, p.27

Leasing:
Capital equipment leasing; market report, 4/17, p.125
Oil shale lands leased for research-development, proposal of Interior Dept., 5/22, p.23

Lewis Research Center: See NASA

Lights:
Fluorescent lights-high frequency cuts power bills at GE, 4/17, p.31

Lubricants, Lubrication:
Acrylic enamel spray lube eases zirconium drawing, 4/3, p.27
Automated welding setup uses spray lube system (AMF bomb production), 6/12, p.101
Filtering extends coolant life in rolling aluminum, 2/20, p.27
Pulsed coolant drilling, 5/8, p.85
Water soluble lube aids sticky tube drawing, 6/5, p.32

M

Machine Tool Industry:
1967 outlook, STEEL polls industry, 1/2, p.73
ASTME tool show comments: Orders dip, machine makers stay busy, 5/1, p.50
British find U. S. markets lucrative, 5/1, p.31
Computer time sharing discussed by used machine tool dealers at convention, 6/12, p.138
Conference on European developments, Aachen Institute, Germany: EXAPT, new program automates tooling, speeds, feeds, 5/15, p.60
Cutting type tool orders up, 6/26, p.15
Equipment sales trend, MAPI, 5/15, p.7
Fluidics enters 'shakeout' phase in machine tool control, 6/12, p.75
Foreign toolbuilders bright future in U. S., 5/1, p.19
IBM computer for direct control of machine tools, 6/5, p.56
Imported machines move in to fill aerospace need: Lad Kuzela, 3/27, p.66
Imports may top exports, 5/29, p.15
Machine tool orders drop as '67 starts slower, 3/6, p.122
Machine tool orders face decline, Value Line Investment survey, 4/3, p.109
Small business financed to buy tools, 2/27, p.21 and 23
Surplus tool auction, Columbus, O., 3/13, p.84
Surplus tool auction, Providence, R. I., 5/15, p.89
Used tools, market trend, 1/30, p.88
Used tools, full tax credit sought, 3/37, p.153
Used tools, AID financing, 4/3, p.109

Westinghouse electrification forum addressed by Fennell, look to new technologies, 6/5, p.64h
Where toolbuilders' sales dollar goes, breakdown, 5/22, p.19

Machine Tools & Attachments:
Adaptive control, milling machines next target, 1/2, p.109
Adaptive controls detect vibration and tool temperatures at GE, 5/1, p.51
Boeing: Large machine tools assembled on site at Auburn, Wash., plant, and Wichita, Kans., plant, 5/22, p.71
Computer control for three vertical turret lathes proposed by Westinghouse, 5/22, p.19
End mill screwed into threaded chuck, imported, 1/23, p.29

Machinery & Allied Products Institute:
Stewart: Opposes product-line revenue reports, 6/5, p.21

Machining:
Automotive transfer line rated at 1,000 pieces per hour (Pontiac), 6/26, p.74
ECM machinability data & ratings, 3/27, p.126a
EDM adapted planer machines plastic molds and forging dies, 2/20, p.78d
EDM for diesinking at Ford, 5/22, p.35
EDM for tough aerospace job, 2/13, p.85
EDM ready for auto body dies, 1/2, p.122
EDM report at tool show, 5/1, p.50
EDM retrofit attachments, 3/27, p.126a
EDM retrofitted to knee mills, 5/1, p.50
EDM sparks research at Argonne Lab, 6/26, p.70
ECM, tips on controlling sparks, 6/5, p.64d
Electro-Stream machining new at GE's Evendale plant: Liquid streams drill holes in tough metals, 4/24, p.49
EXAPT, new NC programming language based on APT, sponsored at Aachen Institute, Germany, 5/15, p.60
Ford (engine plant) takes new machining approaches, 4/10, p.35
Metal spinning tools for space age jobs: Automatic lathe simultaneously shears, spins and mills part surfaces, 3/6, p.58
Milling giant whittles crankshaft machining time (GFM machine, Austria), 1/16, p.54
Ultrasonic machining with hard tool, Harwell, Eng., report, 4/3, p.28

Magnets:
Composite (Shieldmu) shields electromagnetic spectrum, 5/1, p.27
Magnets rolled from powder, GM research, 3/6, p.27

Maintenance:
Hydraulic systems maintenance program (Mobil Oil), 1/30, p.64f
Motor windings repaired with fast cure varnish (polyester) 6/5, p.64f
NC machines, maintenance men must prepare for, 2/20, p.78
Ultrasonic detection instrument aids maintenance, 2/20, p.25
Vibration measurement, du Pont, for defective parts, 1/30, p.31

Management:
Alcoa's young managers sit in on top management problems, 1/9, p.39
Are young managers getting a break? STEEL Feature, 6/12, p.53
Distribution managers coming, 6/12, p.106h*
Executive demand high, Heidrick & Struggles, 1/30, p.23
Executive appointments rise, Maichle & Wytmar, 3/13, p.19
Executives at top not always supermen: Prof. Jennings, U. of Mich., 4/24, p.19
Listen Up! You'll be more efficient: Dr. Ralph Nichols, U. of Minn., 1/2, p.131*
Managing by objectives, 3/6, p.73
Manage by objectives or wheel and deal? Wrapp, Chicago Graduate School, counsels, 5/29, p.46
Marketing managers, overeducated but underdeveloped? 4/24, p.23
Motivating executives, Leavitt, Standard U., 1/30, p.23
Swedish researcher recommends board age limit 70, 10 year tenure, mixed age groups, 1/23, p.23*

Management Systems:
AT&T's OD programs: Organizational Development trainers, 6/19, p.77
Chrysler's DIAS, Dynamic Inventory Analysis System, computer, 6/26, p.62
EXAPT (German association formed to administer), new NC program automates tooling, speeds, feeds, 5/15, p.60
Lockheed's IMPAC, 'universal' computer analysis on complex aerospace programs, 5/22, p.67
Interloc and Sentinel, computer systems aid production, 1/30, p.50
MUMMS, Marine Corp. distribution system, 6/12, p.106h*
PSL, programming aid developed at CEIR Ltd. (programming systems language for computers), 4/17, p.25

Manganese:
Chemical method (flue gas) upgrades ore, 1/2, p.27

Manpower:
Manpower Adm. researchs worker's job finding capabilities, 2/20, p.23
Women* study state labor laws on job status, 2/13, p.25
Workers in short supply, 1/23, p.7
See also Employment, Unemployment
See also Training

Manufacturing Companies:
1966 sales, aftertax profits, dividends paid (FTC and SEC joint report), 4/17, p.27
Company earnings report (product-line revenue) opposed by MAPI, 6/5, p.21

Manufacturing Methods:
EXAPT, new NX program automates tooling, speeds, feeds, based on APT, told at European conference, Aachen Inst., 5/15, p.60
GM process for manufacturing a collapsible steering column (3 families of dies by Konpy Tool, perforated sheet stock, welded column jacket), 4/24, p.54

Marketing:
Free engineering service pays off at Lovejoy, 6/19, p.72
NICB survey of 298 firms at West Coast marketing conference: Marketing execs cite keener competition, 5/1, p.77

Material Handling Industry:
Equipment sales rise slowly, STEEL spotcheck, 2/20, p.102
MHI Pacific Coast show: Dr. Bowersox foresees function of distribution controller, 6/12, p.106h*
Systems concept stressed at institute, 6/19, p.23

Material Handling Equipment: Conveyors:
Automated billet handling on semicontinuous brass casting unit (Loma system), 2/27, p.74
Conveyor belt links are molded polysulfone, 3/6, p.78
Dashaveyor-mine carrier: Modules speed bulk handling, Copper Range, 1/16, p.64
Pipe mill, belt conveyor, 6/5, p.32

Cranes, Hoists:
Hot rolled coils handled by crane suspended coil tilter, 6/5, p.60

Pallets:
Air cushion supports pallets, Clark Equipment, 5/22, p.21

Material Handling Institute Inc.:
Add EDP group, 6/5, p.32

Materials:
Composites men find more questions, more answers: GE and Office of Naval Research cosponsor international conference, 5/29, p.48
Materials race, a challenge: Sentner address NICB conference, 5/29, p.21
Problems & Prospects: Cost of sales for a hypothetical product (chart); taking a new look at handling costs (Mr. Mack's definition), 4/17, p.77
Tool show feature: New materials tame tough jobs, 4/17, p.53

Mechanization: See Production Processes

Medical Systems:
Heart assist pump, 1/23, p.31
Surgeons use lasers-cutting, 5/15, p.27

Meetings: See Business Meetings

Melting:
The second melt analyses for carbon content while metal is still liquid, foundry use, 2/27, p.80c

Mental Health Programs:
O'Connor (U. S. Steel) suggest centers to aid in emotional problems, 3/20, p.21

Mergers:
Eye top man in measuring small firm's potential, 5/29, p.13
Less mergers in '66, but higher earnings, 1/23, p.27
Merger rulings don't block progress: Zimmerman, Antitrust Dept., speaks at AMA, 3/27, p.23

Metal Building Industry:
Metal building makers eye 20-year coating, 5/15, p.50

Metal Deposition:
Electrodeposited lead good bearing material for swaging steel cylinder bores, Army arsenal, 6/26, p.21
Electrodeposition of high strength metal onto prefab assembly (rocket motor case), 5/15, p.15
Metal-boron or graphite coat filaments for airplane parts (isostatic pressing), 4/17, p. 90h
Ultrasonics can speed electrolytic deposition of copper alloys on steel, Bureau of Mines report, 5/29, p.19

Metal Industries:
Industry forecast, Commerce Dept's *Industrial Outlook*, 1/16, p.90

Metal Mold Blowing:
Blowing parts from bubbles (Ilikon process), 1/23, p.49

Metal Processing Industry:
Market report: Fills void between mill, steel user, 5/29, p.76

Metal Removal:
Norton: High speed, high pressure grinding hikes output, wheel life, 5/1, p.52

Metal Spinning: See Spinning

Metal Stripping:
Electrohydraulic technique strips harvested metal from cathodes, 1/23, p.58

Metallurgy:
Eutectic metal composites, MIT research, 5/22, p.31
Grain growth studied by British and USSR, controlled solidification of metals, 4/24, p.27
Stress corrosion cracking in titanium alloys studied, 5/1, p.25
Whiskers via radial furnace, 5/22, p.31

Metalworking:
Annual Facts & Figures, 3/27, p.77
1965-'66 sales, earnings (chart), 2/20, p.9
1967: A year of blooming for development technologies, 1/2, p.97
1967-1st half earnings forecast by 1st Nat'l City Bank, N. Y., 3/27, p.21
1967-1st quarter profits, 5/1, p.7
1967-1st quarter sales, earnings (companies), 5/8, p.9
1967: What metalworking managers expect in 2nd half, 6/5, p.45
Profit pinch is on warns Dr. Reeder, du Pont, 4/17, p.7

Metric System:
Ford details metric system usage, 5/8, p.35

Mexico:
Auto quotas cut, 6/26, p.28
Iron ore deposite surveyed, 5/29, p.26
Raw steel production up, 5/22, p.31
Steelmaker orders continuous casting units, 1/30, p.27
Steel mill built near Publa, 2/13, p.31
Steel production up, 2/20, p.25

Mining:
Boyd (Copper Range): Mining basic to economic process, 3/6, p.23
Copper mine (Mich.): Modules speed bulk handling, 1/16, p.64
Extractions from Great Salt Lake possible with new Bureau of Mines dev., 4/3, p.19
Minnesota mining plants bolster economy, 1/30, p.32
Mining equipment market opportunities, seven areas, 3/13, p.83
See also Ocean Mining

Molybdenum:
Consumption, production figures, 1966, 4/17, p.21

Motors, Generators:
Fractional motor sales, market trends, 6/26, p.98

Mutual Fund:
A Mutual Fund looks at steel—a bright future, 5/8, p.75

N

National Aeronautics & Space Assn.:
Aircraft performance, improvements studied, 6/5, p.29
Lewis Lab: Minuscule signal runs pneumatic control (system dev. of use in open heart surgery), 5/8, p.66
Self-lubricating composites increase load bearing life, 6/12, p.106e*

National Association of Purchasing Agents:
Surveys business expansion, 5/8, p.19

National Industrial Conference Bd.:
Air-water pollution controls, firms surveyed, 1/2, p.25
Capital spending, 1st half, 3/30, p.102
Competition spawns new products, 4/17, p.19
Deferred wage increases decrease, 3/20, p.19
Household debt rising, 5/15, p.90
Marketing execs cite keener competition: Survey of 298 firms, report released at West Coast marketing conference, 5/1, p.77

National Machine Tool Builders' Association:
1967 forecast, 1/2, p.19 and p.73
Appoints John Vance, 1/16, p.28
Emphasis is on industrial modernization, replacement, 3/20, p.19
Meeting report forecasts, 5/16, p.106
On-job training, federal funds, 1/2, p.32
Survey of R&D future needs, design engineering, 4/17, p.19

National Tool, Die & Precision Machining Assn.:
1967 forecast, 1/2, p.19
Communication network (Teletypes) considered, 2/20, p.19
Seeks law to insure manpower to fill apprenticeship needs, 2/27, p.21
Manpower Act training contract sought, 3/13, p.17

Navy:
Aluminum joiner bulkheads for vessels, 6/12, p.85

Automated welding setup speeds bomb production, 6/12, p.101
Contracts for plastic hull for DSRV, 5/1, p.23

Nickel:
Nickel market report, shortage jars heating equipment makers, 5/8, p.116

Nondestructive Testing: See Inspection, Testing

Nonferrous Market:
1967 outlook for aluminum, copper, lead-zinc, 1/2, p.76
Aluminum, other metals, price increase, 1/23, p.78
Copper price hike, 1/16, p.91
Copper approaches turning point, U. S. and Free World capacity, 5/15, p.53
Copper utility market declines, 6/5, p.25
Gold and silver, price outlook, 2/6, p.29
Lead-zinc market report, 4/17, p.126
Nickel market report, 5/8, p.116

Northwest University:
Dr. Endicott: What college grads want, 6/26, p.19

Nuclear Power:
Big market for metalworking, 5/22, p.27
See also Atomic Energy

Numerical Controls:
Adaptive control, milling machines next target (developing techniques), 1/2, p.109
Adaptive controls (GE) detect vibration, tool temperatures, 5/1, p.51
Apt postprocessor for machines dev. for AEC, 4/24, p.29
Association formed to administer EXAPT, a programming language based on APT (Aachen Institute, Germany), 5/15, p.60
Automakers tap NC for bigger role (Ford, GM), 5/29, p.54
Computer graphics used in preparing control tapes for NC machining, 4/3, p.70b
Fluidic NC system displayed at ASTME show, 6/12, p.76
Future NC equipment will demand thorough process changes, remarks at Westec expo, 3/20, p.61
Lockheed's NC tape preparation automated, 1/2, p.130
Maintenance men must prepare for NC (Costales, Hughes Aircraft), 2/20, p.78
Metalworking shop runs under 1000 pieces must have NC, conference speaker, 5/8, p.88f
NC tube bender features adaptive springback control, Pines Eng., 6/5, p.59
Olivetti enters NC package in computer diemaking race, 1/9, p.43
Philco-Ford's WDL Div.: Three NC machines key up job shop productivity, 5/1, p.72
Think tape to get best results (Jensen-Kelly executive), 4/17, p.98d

Nylon:
Cast nylon replaces metal in tanks for carpet washing machines, 5/1, p.92a

O

Oceans:
Freeport's (sulphur) mine off Louisiana coast, 5/15, p.45 (cover pic)
Ocean mining, here's where we stand, STEEL Feature, 5/15, p.45
Underwater search for gold, etc. off Alaska, Oregon and Calif., 5/15, p.23
Undersea housing in submergence sphere, GE research, 6/19, p.29

Office of Emergency Planning:
Seeks more U. S. rutile ore production, 1/30, p. 21
Stockpile goals re-evaluated, materials listed, 1/16, p.17

Offices:
Efficiency in office operation study, 4/10, p.199

Orders, Deliveries:
Customer receives copy as—computer updates order status weekly, Kaiser Aluminum Newark, O., plant, 4/3, p.64
Metalworking managers rate suppliers, 6/19, p.67

P

Packaging, Containers:
Developing container materials, 1/2, p.100
Packagers study ways to eliminate litter, 4/24, p.21
Paris exhibition, packaging equipment, 1/9, p.12
Steel foil finds packaging receptive but troublesome, 5/1, p.57
See also Cans, Canmaking

Paint Industry:
Industry report, application moves to unconventional, 6/19, p.112
See also Finishes, Coatings, Paint

Patents:
Laser holograms can aid world patent systems, 6/19, p.21
World patent system closer with proposed cooperative treaty, 6/12, p.21

Pensions:
Pooled pension plans (multiemployer), stability to workers at small firms, 6/12, p.21

Photography:
Holograms made from white light, 2/20, p.29
Instamatic camera, 4/3, p.60
Laser holograms can aid world patent search system, 6/19, p.21

Pickling:
Hydrochloric acid pickling line with three tanks eliminates heating sheet with a gas flame, 3/6, p.86b

Pickling Wastes: See Wastes

Pig Iron:
Fast way to change chemistry of pig iron, Russian source, 2/13, p.29

Plant Moves:
New York City, taxes make American Can and Olin move operations, 2/27, p.23

Pipelines:
Epoxy coat on underground pipe subverts corrosion, 5/8, p.71
Swage-Bond process joins aluminum pipeline, 2/13, p.27

Plastics Industry:
Industry forecast, 1/23, p.89
1966 markets report, U. S. resin production, 4/17, p.124

Plastics:
Adhesive laminated metals shortcut fabricating costs, 1/30, p.56
Appliance uses to come, conference speakers, 5/1, p.68
Automatic assembly of Bakelite receptacles on 24-station transfer machine, 5/1, p.92a
Ceco: Plastic coated steel for building materials field, 2/6, p.68e*
Cold stamped plastics make debut, Marbon Chemical Div., 4/10, p.63
Conveyor belt links are molded polysulfone, 3/6, p.78
Developing techniques: Cold formed plastics, 1/2, p.121
Development technologies: Plated plastics, 1/2, p.101
Plastic-metal race, uses, 2/6, p.31
Plastic hulls for submergence vehicles, 5/1, p.23
Plastic ship 600-ton, Britain, 4/10, p.98a
Polypropylene enters chrome plating arena, 5/15, p.21
Reinforced plastics usage estimated, 1/9, p.71
Teflon curing for coated metal parts eased by two-oven system, 4/17, p.98b
Thermoplastics at lower cost, Rexall Chemical, 5/29, p.23
Tooling and fixtures, epoxy resins usage estimated, 4/3, p.17
Ultrasonically staking plastics to metal, new assembly tech., 2/13, p.91
Ultrathin plastic films, GE polymer coating, 6/12, p.29

Plating Job Shops:
Industry report, STEEL survey, 5/22, p.108

Plating: See Electroplating, Plating

Pollution:
See Air Pollution
See Water Pollution

Powder Metallurgy:
1967 consumption of iron base powders forecast, 1/2, p.27
Ancormet 101 and 201, new powder metals (Hoeganaes), 2/6, p.29
Award at P/M meeting, planetary gear assembly of 14 P/M parts, 5/22, p.32
Electrohydraulic crushing makes fine powders via HERF, Harwell system, 4/3, p.21
Magnets rolled from powder, GM research, 3/6, p.27
P/M parts get isostatic pressing (STEEL Feature), 3/6, p.51
Powder metal fed at 16 lb per hour (plasma flame spray gun with new feeder), 6/12, p.106u*
Preinfiltrated iron powders, new tech., 6/5, p.25
Resulfurization aids machinability of P/M parts, 6/12, p.31

Power Equipment:
Forecast: $1 trillion nuclear market, 2/13, p.21
Microwave equipment expands to industrial processing, 4/24, p.97
Minuscule signal runs pneumatic control (fluidic-pneumatic valve), 5/8, p.66

Powerplants:
Hydroelectric project in Calif. boasts stainless steel for underground trashrack system, 6/5, p.64s

Presses:
35,000 ton extrusion press designed, 1/23, p.32
75,000 metric ton closed die forging press exhibited by Russians, Paris Air Show, 6/19, p.19
200,000 ton forging press bought by AF, 1/16, p.21
200,000 ton forging press, remarks at AF symposium, who will finance? 1/23, p.21
200,000 ton forging press detailed by Battelle, 1/30, p.21
Chevrolet stamps grilles faster—with synchronized control, 1/16, p.49
Cold stamped plastics make debut at AMA packaging expo; fed with coils of ABS material and Bliss punch press, 4/10, p.63
Fine blanking presses, too good for U. S. stampers to pass up, 4/10, p.87
Hydraulic press brake, operations combined, 4/24, p.72a
Isostatic pressing for P/M parts, 3/6, p.51
Metalworking press makes its own dies, 3/6, p.29

Price-Profits:
Critical choices 1967: Will you hold price line or profit margin? 3/13, p.45

Process Control Equipment:
Market forecast: Multibillion dollar infant, 5/1, p.116

Product Development:
Innovation in design, feature article, 5/8, p.57
NICB survey: Competition spawns new products, 4/17, p.19
Westinghouse speaker: Stream of ideas insures sales, 5/29, p.15

Product Liability:
How Budd guards against product liability, 3/6, p.67

Production:
Industrial production ('61 vs '66), 1/30, p.7
Ingot production-1966, 1/2, p.69
Raw steel production, 1966, 1/23, p.77
Reinforcing steel, 1966, shipments by markets, 2/13, p.117

Production Processes:
Bendix press shop: Automated production control system, central controlroom via PA system, 4/24, p.63
Mechanization slashes labor time, triples parts production at Molded Fiber Glas Body, 3/20, p.69

Productivity:
Europe's philosophy of production does not follow the U. S. concept (comparisons of labor cost), 6/12, p.94
Is your productivity keeping pace? Value added per production worker vs per employee (E-R-N compilation), 6/26, p.68
Productivity and profits (editorial), 6/5, p.17

Profit Sharing:
A progress report: Council of Profit Sharing Industries, Profit Sharing Research Foundation, Motorola Inc., 2/20, p.68

Profits:
Will you hold price line or profit margin in 1967? 3/13, p.45

Psychology:
Mental health centers for emotional problems suggested, 3/20, p.21

Pumps, Compressors:
Market report, Commerce Dept., 1/30, p.91

Punching, Piercing:
Longer, thinner steel billets via Dynapak, 4/24, p.72i

Purchasing:
J&L purchasing research pays off, 3/20, p.70
Material management (Mack-consultant) defines problems and prospects from procurement to shipping, 4/17, p.77
Mills (Ford Motor): Reward supplier's initiative, 5/1, p.25

Q

Quality Control:
Computers and improved accounting cut costs, 6/5, p.23
Cost cutting suggestions, Chicago convention, 6/12, p.29
Giant eyes focused on quality role, growth market for electron microscopes (STEEL Feature), 5/29, p.41
Japanese quality moving up on U. S. fast (Quality Control convention, Chicago, report), 6/19, p.62
Quality Commission organized at convention, 6/12, p.31

Quenching:
Salt quench tank electrically heated for austempering pliers, 6/12, p.63

R

Radiation:
A strippable varnish blocks radioactivity, 4/24, p.25
Naval Lab probes radiation sensitivity in heat treatment, 5/8, p.27
Semiconductors resist radiation, 1/9, p.19

Radiation Curing:
Commercial potential being spelled out, 1/2, p.119

Radio, Television:
Closed circuit TV, A. P. Green Refractories, 6/12, p.106b*
Closed circuit TV shows 'inside story' of heating furnace at Aristoloy Steel Div., 2/20, p.78
Color TV service center trains technicians, RCA, 4/24, p.21
Tour a plant or view complex operation via TV videotape (sales and training), 3/20, p.75
TV: Better way to see nondestructive tests (Argonne Lab), 4/17, p.82
TV steel usage drops, 1/16, p.19

Railroad Equipment Suppliers:
Investment tax, effect on industry, 3/20, p.100

Railroads:
AAR system study underway, 4/10, p.23
Capital spending down, 2/27, p.21
Flame hardened and high silicon steels for rails researched, 2/20, p.31

Market trends: Clearer track for battered rail suppliers, 6/26, p.96
Railroad axles truer with U. S. Steel control, 6/19, p.31
Retired freight cars pose problem, Booz, Allen study, 5/1, p.23
Tax credit suspension impact, 2/6, p.19
Steel products demand, 1/30, p.80
Western steel users seek freight rate relief, 4/24, p.88

Rapid Transit: See Transportation

Recruiting:
Stockholders should recruit, 3/6, p.23
Will industry be forced into educational programs, 2/13, p.25

Refractories:
Kaocrete D, castable refractory of B&W, 4/10, p.82
Open hearth roofs, increased life with added thickness, 2/13, p.31
Refractory pouring tube aids stream degassing, Latrobe vacuum melt furnace, 4/10, p.68

Refractory Metals:
Cellular metals cast in molds, 3/27, p.25

Research & Development:
Argonne Lab, EDM sparks research, 6/26, p.70
Firms cite spending trends, 6/5, p.7
Metal finishers' study, U. of Mich.: Needed—R&D, better pricing policy, 4/17, p.23
Nontechnical people aid R&D, 2/20, p.23
Priorties, which gets consideration first, 5/1, p.23
Purchasing research, J&L, 3/20, p.70
Smaller companies, tip for successful R&D, 5/15, p.15
Toolbuilders go beyond design engineering in R&D, 4/17, p.19

Retirements:
Early retirements for Chrysler-UAW workers, 3/20, p.23

Roads: See Highways

Rolling Mills:
British unit—three rolls make seamless tubes, 2/13, p.27

Roofs: See Construction

Rubber:
Hollow rubber cylinders and sealed rubber bags speed casting (Czech), 2/13, p.27
Radial ply tires available soon, 6/26, p.31
Rubber-steel pads protect heavy equipment, absorb shock, 1/16, p.60

Russia:
Article: Why Russia wants long term trade policy with U. S., 3/13, p.52
50,000 ton press planned, 5/22, p.19
Air Show, Paris, exhibt (pic. 75,000 metric ton closed die forging press), 6/19, p.19
Auto plant (Fiat) gets credit from U. S. machine tool builders, 3/6, p.21; planning slows, 3/20, p.19
Autos exported to New Zealand, 4/24, p.31
Copper plating steel, new dev., 3/6, p.25
Cybernetic system for control of economy, 2/6, p.31
Machine tools from Britain, 6/12, p.32
Renault plant (2nd) purchased, 2/6, p.31
Titanium research report, 2/20, p.23
Tungsten thread dev., ultrastrong, 6/19, p.27

S

Salaries:
Manager pay boosts average 11%, 1/16, p.19
Professional and administrative people get bigger raises than clerical workers, 1/9, p.13

Salesmen:
Sales approach, plug computer into desk without leaving office, 3/27, p.25
Sales and training: Tour a plant or view complex operation via TV videotape, 3/20, p.75

Scales, Weighing:
Electronic coal weighing system, Cardinal Power Station, 6/12, p.106b*

Scrap:
Autos scrapped without smoke in rotary kiln, 4/3, p.70c
Crushed auto scrap proposed for concrete block segments, 4/17, p.25
Federal officials urge more auto scrap for steelmaking, 5/8, p.29
Merwin (Eriez) addresses iron-steel convention, scrap recovery methods, 1/30, p.25
Scrap losses trimmed via eddy current testing, 3/6, p.57
Shredders, competition concern some processors, 1/23, p.27
Ship scrappers bid for old Liberty vessels, 2/13, p.126

Screw Machine Products:
Industry - market reports, 2/27, p.101 and 6/12, p.136

Sealants:
Carbon-graphite seal ring for jet engine shafts, 3/6, p.29
Copper alloy castings sealed by annealing, 3/27, p.29

Service Centers:
Market report, 3/13, p.82

Shearing: See Cutting, Shearing

Sheet & Strip:
Machine forms high carbon steel strip into bearing races, 6/5, p.52
Nickel strip electroformed continuously, 6/19, p.29
Perforated sheet stock for GM's steering column, 4/24, p.54
Powder metal strip, a handling problem, 1/16, p.23
Strip coating gage dev. by Ohmart, 6/5, p.54
Titanium sheets built via diffusion bonding, 1/16, p.15

Shipments:
Estimated steel shipments by market classification ('65 to '75), 5/8, p.75
Reinforcing steel production, shipments by markets, 2/13, p.117

Shipping:
Containerization aids West Coast, 6/12, p.23
Ocean shipping via barge, Ala. to Jamaica, 1/23, p.21

Ships, Shipbuilding:
1967 shipbuilding renaissance, U. S. yards equipping, 4/3, p.106
Acoustic position reference system for off-shore drilling vessels, 6/19, p.27
Aluminum gains in shipbuilding, bids on Navy craft, 4/3, p.17
Autokon system (automatically determined shape of plates) installed at Quincy shipyard, 1/23, p.32
Commercial cargo liner built of steels, 1/23, p.31
FDL program (fast deployment landing), Defense study, 3/13, p.58b
Great Lakes shipping fleets built in foreign yards at less cost, 5/15, p.21
Merchant fleet can be beefed up with modern ships, 4/17, p.23
Navy contracts for 356 ships this year, 2/20, p.23
Plastic hulls for submergence vehicles, study, 5/1, p.23
Reinforced plastics for Britains 60-ton ship, 4/10, p.98a
Research submarine, *Beaver Mark IV*, dev. by North American, 5/8, p.32
Service station ship features twin hulls, 2/6, p.25
Ship scrappers, Oregon, bid for old Liberty vessels, Maritime Adm., 2/13, p.126
World launchings '66, Japan leads, 6/26, p.17

Shock Absorbers:
Rubber-steel pads protect heavy equipment (National Castings), 1/16, p.60

Silver:
Treasury Dept., no restrictions seen, 2/13, p.21

Skeletonizing:
Cost cutting tips via skeletonizing components (steel wire framework in place of sheets or solids), 1/9, p.44

Skilled Labor:
Skills shortage: Stop begging and build (STEEL Feature), 6/19, p.57
Employees work overtime, moonlight shift, 3/20, p.21

Slag:
Slag-Ceram construction material (bricks, tiles), 1/9, p.23

Slitting: See Cutting, Shearing

Smelters, Refineries:
Alcan and Norway joint project, aluminum smelter, 1/2, p.32
Copper smelting process new (Worcra), Australia, 3/6, p.23 and (article) 4/17, p.65
English automated smelting plant, lead-zinc refining process, 5/1, p.84
Gamma rays check level in zinc smelting furnace, St. Joseph Lead, 5/8, p.69
Ironless zinc from smelter, Bof M report), 2/6, p.29

Smoke & Smog: See Air Pollution

Social Markets:
Trillions pegged for markets (lift smog, clean rivers, unsnarl traffic, educate young and old), 5/15, p.91

Society of Automotive Engineers:
Detroit show: Safety, vendors' top selling point, 1/16, p.56

Solar Energy:
Solar panels unroll like window shade, space use, 5/1, p.31

Soldering:
Infrared soldering bonds cables, 3/6, p.27
Joining brass alloys, report, 3/6, p.29
Nickel plate aids ceramic soldering, 3/13, p.23

Sonic Power:
Controlled vibration: The idea that's shaking up industry, 4/17, p.98a*
Sonic power sounds off (vibration) STEEL Feature, 6/26, p.55

Space Materials & Developments:
AT&T proposes satellites for communication-TV, 1/9, p.13
Aerospace need filled with foreign machine tools: Lad Kuzela, 3/27, p.66
Alloys for space age, some dos and don'ts, 5/8, p.78
Alloys for space age, GE metalliding, 6/26, p.20
Atom rocket engine readied (forged aluminum housing), 1/2, p.29
Casting alloys (copper-nickel-aluminum) studied at Northrop, 1/23, p.64
Coating for aerospace metals, Bureau of Mines, 5/22, p.29
Electric rocket engine runs off low solar cell voltage, 3/27, p.31
Emergence of composites hastened by gains in materials, fabrication (boron filaments, automated machinery, etc.), 1/23, p.61
Minuteman missile, changes under AF study, 4/3, p.17
Missile launch sites: Epoxy coat on underground pipe, 5/8, p.71
Moon rocket, MIG welding, 2/13, p.29
Nuclear rocket engine research demands efforts of material engineers, 5/8, p.88d*
Thermocouples changed to meet needs of spacecraft heat shields, 1/9, p.24

Spinning:
Metal spinning tools up for space age jobs (Spincraft), 3/6, p.58

Stainless Steel:
Armco's new CMC Type 303 cuts rejects in fabricating small parts, 3/13, p.25
S. African firm makes stainless via new method, 2/20, p.19
Type 363 protects cargo contamination in hopper cars, 1/16, p.27
Stainless fights corrosion, new at U. S. Steel, 3/20, p.29
Underground powerplant, Calif., uses stainless steel for trashrack system, 6/5, p.64s

Stampers:
Industry outlook, 1/23, p.88 and 4/24, p.99

Stamping:
Chevrolet stamps grilles faster, synchronized control, 1/16, p.49
Cold stamped plastics make debut, Marbon Chemical, 4/10, p.63
Fine blanking presses—too good for U. S. stampers to pass up, 4/10, p.87
Integrated circuit frames stamped with carbide dies (change trims costs from $50 to $2.50), 2/27, p.63

Steel Alloys:
Copper clad steel for bullets, 5/1, p.27
Ford's new nickel molybdenum steels, 3/6, p.23
Maraging steel alloy (18 Ni 350) ready for dies and tools, 2/27, p.27
Maraging steels get tougher jobs, 4/17, p.54
Maraging steel extends ram life, 5/15, p.27
Steel yield strength boosted by Aerojet, 1/23, p.31

STEEL Features:
Alco molds its future—young managers get a crack at top management problems, 1/9, p.39
Are young managers getting a break? A time of discontent, 6/12, p.53
Better government-industry dialogue in defense planning: Case for (Carter, Wyman-Gordon), 5/1, p.47
Bladder puts squeeze on appliance parts (forming machine), 2/27, p.57
Blowing parts from bubbles: Prospectus on a new process (Ilikon), 1/23, p.49
Chevrolet stamps grilles—with synchronized control, SAE report, 1/16, p.49
Computer system (Lockheed-Georgia) helps managers subdue giant C-5A, 1/30, p.49
During boom times, why aren't steelmakers faring better? 4/3, p.53
Giant eyes focused on quality role, electronic microscope, 5/29, p.41
Granite City Steel, companies in transition, 3/20, p.57
Isotatic pressing: A breakthrough in the making? 3/6, p.51
Labor: Stand or submit, critical choices 1967, 2/13, p.73
NDT on adhesive joints may open up new jobs, 3/27, p.59
Ocean mining: Here's where we stand, 5/15, p.45
Red China, 2/20, p.49
Refinements boost diamond technology, 2/6, p.53
Skills shortage: Stop begging and build, 6/19, p.57
Sonic power sounds off, 6/26, p.55
Value analysis, 5/22, p.57
What metalworking managers expect in second half, 6/5, p.45
Will you hold price line or profit margin? Critical choices 1967, 3/13, p.45
Your big welding problems can be whipped, 4/10, p.53

Steel Foil:
Packaging and other uses, article, 5/1, p.57

Steel Founders' Society of America:
1967 forecast, 1/2, p.19

Steel Industry:
1966 sales, profits, 2/6, p.19
1967 forecast, STEEL polls industry, 1/2, p.72
1967—Test year for foreign steel in U. S. market? 2/6, p.58
A Mutual Fund looks at steel—a bright future, 5/8, p.75

Annual financial analysis of steel industry (insert), 4/3, p.56a
Chart: Estimated shipments by market classifications—(1965 to 1975), 5/8, p.75
During boom times, why aren't steelmakers faring better? Worthington, U. S. Steel (STEEL Feature), 4/3, p.53
Earnings down for 22 steelmakers (chart), 5/8, p.88e*
Foreign steel tariffs, AISI proposal: Reactions stated by Abel, Dirksen, Dent, 2/20, p.61
Imported steel product prices closer to domestic levels, 2/20, p.21
Investors analyze steel at Pittsburgh seminar, 5/8, p.77
Reinforced steel production, shipments, 2/13, p.117

Steelmaking:
1967: Developing technologies (continuous casting, direct rolling, swing forging), 1/2, p.98
Alloy additions to ladle of steel speeded by computer readout, 3/6, p.82
BISRA: Radar checks furnace level, 6/26, p.27
Blast furnace (Tokai Iron) efficiency with axial-flow steam turbine blower, 6/26, p.71
Coke quencher continuous, 6/5, p.31
Continuous, billet heating furnace speeds production of decarb-free steels, Latrobe, 4/17, p.90e*
L-D steelmaking capacity in U. S., 2/20, p.21
L-D process, silicon carbide melts more scrap, 4/10, p.21
Measuring oxygen in liquid iron studied, 3/6, p.27
Pouring tube aids stream degassing, Latrobe vacuum melting furnace, 4/10, p.68
Scrap charge of 51% in BOFs possible with calcium carbide, 4/24, p.25
Slab scale shut out with special combustion (Selas furnace), 6/26, p.76k*
Spray steelmaking (BISRA) means savings, 4/17, p.29
Spray steelmaking, new plant, 3/20, p.29 and 5/15, p.27

Steel Mill Controls:
Adaptive control upgrades hot rolling mill (GE process for Detroit Steel plant), 2/6, p.64
Blaw-Knox: Computer readout speeds addition of alloys to a ladle of steel, 3/6, p. 82
Computer expands from power to process control, B&W furnaces, 6/12, p.61
Computerized steelmaking training, Wheeling Steel Steubenville plant, 5/22, p.64
Copperweld computer furnace control, Bailey Meter installation, 1/30, p.55
English automate lead-zinc smelting, Elliot ARCH computer, 5/1, p.84
Inland hot strip mill, alarm system lessens downtime, breakage, 1/23, p.63
Inland's No. 5 blast furnace supervised by computer, Indiana Harbor Wks., 2/27, p.64
Investment casting via computer, Hitchiner Mfg., 2/13, p.94

Steel Mill Products:
Inventory survey, 1st quarter, 3/6, p.111
Inventory survey, 2nd quarter, 6/5, p.95

Steel Mills:
China orders Austrian steel plant, 1/2, p.29
Cluster mill fits four high stand, combines operations for, hard metals (Waterbury Farel), 1/23, p.55
Mexican mill near Puebla, 2/13, p.31
Mill at Becancour, Que., plans, 3/20, p.31

STEEL's Panel of Economic Consultants:
Panel of economic consultants downshifts its 1967 outlook, 4/3, p.7
Semiannual survey: Economy not strong enough for tax hike (panel members listed), 4/3, p.58

Steel Products:
Service centers foresee record shipments, 1966, report of AISI, 2/6, p.87

Steel Service Center Institute:
San Francisco meeting: Who benefits from 40% growth in steel consumption next decade? Chumps, patsies, suckers, 5/15, p.15
Meeting speaker: Prepare men for management in '70s, 5/22, p.25

Stevens Institute of Technology:
Lab burner for solid rocket propellents eases research, 1/30, p.31

Stockpiles:
Office of Emergency Planning resights stockpile goals, materials listed, old objective-new objective, 1/16, p.17
Program for rutile ore stockpile purchases, 1/30, p.21

Storage System:
Rack system, make or buy? 2/27, p.79

Straightening:
Straightening system also inspects automotive pinion shafts, Detroit plant, 3/20, p.73

Structural Steel Fabricators:
1966 estimated booking of fabricated structural steel, 2/6, p.88
Market report, 4/10, p.132

Structurals:
Metal building makers eye 20-year coating, 5/15, p.50
Metal-nonmetal panels for SST under study at Boeing, 3/6, p.64
Plastic-concrete-steel panels for apartment in London, 2/27, p.29
Spider web supporting roof, Madison Square Garden Center, 2/6, p.57
USS Cor-Ten used in new headquarters building, cover pic., 4/3, p.56

Suggestion Systems:
Westinghouse employee award, physical separation of grinding dust by alloy, 5/8, p.32

Supersonic Transport: See Aircraft

Supplier-Buyer:
STEEL surveys manager: Suppliers—how do your customers rate you? 6/19, p.67

Surface Treatment:
Canadizing: Electrochemical surface treatment for titanium, 1/23, p.29

Surveys:
What metalworking managers expect in 2nd half, STEEL survey, 6/5, p.45

Sweden:
Labor force, 30% turnover normal, 1/30, p.25
Pay boosts for male-female workers, 1/9, p.17

T

Taxes:
7% investment tax credit, was suspension necessary (editorial), 3/20, p.17
Tax credit compromise bill, 6/5, p.19
Tax credit restored, 6/19, p.19
Used machine tool dealers seek full tax credit when investment credit is restored, 3/27, p.153

Technologies:
1967: A year of blooming for development technologies, 1/2, p.97

Television: See Radio, TV

Tin:
Malaysia tin production expands, 2/6, p.32

Titanium Market:
Reactive Metals hustles to stay ahead of titanium's market, 6/5, p.92

Titanium:
ASM symposium speaker, titanium developments, 2/13, p.21
AF C-5A fasteners of titanium, 2/6, p.27
Aircraft usage up, 1/30, p.21
Electrochemical surface treatment (Canadizing), 1/23, p.29
Long titanium aircraft panels sought, 1/23, p.29
Titanium alloy has less creep, 6/19, p.29
Titanium cast propellers for hydrofoil gunboat, 3/20, p.31
Titanium casting facility, joint venture, 2/6, p.32
Titanium electrowinning research stepped up, Bureau of Mines' Nevada lab, 6/5, p.55
Titanium forgings and extrusions, improvements sought, 1/23, p.19
See also Aircraft (SST)

Tool & Die Industry:
Business report, slowing order pace, 2/20, p.105

Tool Steels:
Titanium carbides cutter at Ford; steels for plastic tooling, etc. (new materials tame tough jobs), 4/17, p.53
Tool steels, does it pay to switch? 4/3, p.28

Tool Show Feature:
New materials tame tough jobs, 4/17, p.53; chart—where tooling materials are used, 4/17, p.58

Tool & Die Industry:
Market report, 5/15, p.88

Tools & Dies:
Boeing to use Shaw process for ironing dies, titanium aircraft structurals, 6/12, p.106u*
Carbide dies used to stamp cheaper integrated circuit frames by Hydro-Cam Eng., 2/27, p.63
Cast-to-size dies, development technologies, 1/2, p.103
Cast-to-size dies, mold shrinkage guidelines (Latrobe), 1/9, p.19
Cast-to-size dies (Gamma process) uses ceramic mold material PCI, 5/8, p.29
EDM ready for auto body dies, 1/2, p.122
Electroformed dies, 6/26, p.27
Hob hobbing via forging dies, 3/20, p.29
Hot work die steels, 4/17, p.55 and 60
GM: Dies used in manufacturing a collapsible steering column (three types supplied by Koppy Tool), 4/24, p.54
Olivetti system, clay models to finished body dies via computer programs, 1/9, p.43
Roller dies speed reduction of copper rod, 4/17, p.75
Tool steel socket screws, Hot-Tuf fasteners, keep hot work dies on line (hot forming and forging), 3/20, p.76

Tools (Cutting):
Cutting tool sales, good barometer, 3/20, p.102
Resharpening costs shaved 15 cents per part (crankshaft production), 4/17, p.90d*
Shaped inserts cut changing time, 5/8, p.29

Tools (Hand):
Battery powered screwdrivers, cordless, 2/13, p.91

Trade Fairs:
51 countries to stage fairs, 1/9, p.15

Training:
AT&T's organization development program (OD), 6/19, p.77
Computerized steelmaking training, Wheeling Steel's Steubenville, O., plant, 5/22, p.64
Government training under MDTA and Job Corps, 4/3, p.19
Federal aid to industry, on-job training, 1/2, p.32 and 6/5, p.19
On-the-job training, NMTBA, 1/2, p.32
On-job training, stamping group, 1/2, p. 42
Packaging mechanics trained, vocational high school, 5/1, p.32
RCA training center for TV color receivers, 4/24, p.21
Skilled labor (STEEL feature), 6/19, p.57
Steelworkers adult basic education, Chicago and Baltimore areas, federal funds, 5/29, p.15
Videotape TV for sales and training, views machining operations, 3/20, p.75

Transportation:
Aircraft propjet engines power turbo trains, 3/20, p.25
Auto-on-train development, Va. to Fla., 4/24, p.21
Cities must solve problems of mass transit: Conference on urban transportation, 4/17, p.25
Cornell study: Future system via pneumatic tires for city driving; automatic guideways for commuting, 6/19, p.25
Electric self-transit rail and road car, 3/20, p.27
Freight hauling to double by 1986, 3/13, p.19
Helicopters handle cargo between inland and anchored ships, 4/3, p.17
Pollution-free cars, U. of Pa. studying transportation system for downtown Philadelphia, 5/29, p.17
Process computers for Rapid Transit trains, San Francisco, 4/3, p.19
Rapid transit advancements lag in U. S., faster in Canada and Europe, 4/24, p.21
Rapid transit market $6 billion, estimate of Johnson (Ill. Central RR), 1/23, p.25
Rapid transit, market for controls and signal equipment, 2/13, p.21
Rapid transit via microwaves, Rensselaer Polytechnic study, 4/10, p.25
Rapid transit needs cited at Pittsburgh conference, 5/8, p.23
Rapid transit test track urged by Haar, Dept. of Housing & Urban Dev., 5/29, p.17
Teletrans—baggage handling system, rapid transit, 2/6, p.34
Train controls on Chicago elevated, communication cable, 4/17, p.90c
See also Aircraft, Airports

Trucks, Trailers:
Trailer raises its roof to permit sideloading by lift truck, 1/30, p.32

Tubing:
Automatic NDT system: Scrap losses trimmed via eddy current testing, 3/6, p.56
Welded steel tubing, market report, 1/16, p.90

U

Ultrasonics: See Inspection, Testing

Ultrasonics Manufacturers Assn.:
Industry growth reported, 2/6, p.25

Undersea: See Oceans

University of Chicago:
Prof. Wrapp: Manage by objectives or wheel and deal? 5/29, p.46

University of Michigan:
Cost cutting costly, Dr. Likert, 1/30, p.23
Metal Finishers' study: R&D, better pricing policy needed, 4/17, p.23
Prof. Jennings: Top executives not always supermen, 4/24, p.19
Sponsors conference of European developments in manufacturing technology: EXAPT dev. at Aachen Institute, Germany, 5/15, p.60
Seminar speaker (Ford): EDM in diesinking, 5/22, p.35
Seminar speaker (Chrysler): Computer bids for bigger manufacturing role, 5/22, p.37

University of Minnesota:
Nichols: Listen Up! (managers), you'll be more efficient, 1/2, p.131*

Urban Planning:
Cities must solve problems of mass transit, 4/17, p.25
Floating city of tomorrow: Aluminum-glass units, 6/26, p.19
Industry can help save cities: Dr. Doxiadis, 1/9, p.15
Needed in next 35 years: Systems to sell supurbia, 6/26, p.17

Used Machine Tools:

V

Vacuum:
How Boeing forms parts via 'creep' vacuum process, 5/22, p.72
Latrobe vacuum melt furnace, refractory pouring tube aids stream degassing, 4/10, p.68

Value Analysis:
Article (STEEL Feature): Decision makers' route to profit, 5/22, p.57

Vendors:
Auto safety, vendors stress at SAE show, 1/16, p.56
Sparton Electronic vendor rating system, 6/12, p.25
Vendor data for engineers, designers, PAs: Visual Search Microfilm File Data Service Center, 6/26, p.73

Venezuela:
Guayana: A key in economic growth, 4/3, p.27

Vibration:
Sonic power (controlled vibration), new idea for industry, 4/17, p.98a*
Sonic power, vibration relieves stresses at Aerojet, 6/26, p.58

W

Wages:
Deferred wage increases down, NICB, 2/20, p.19
Wage increases in contract settlements, manufacturing, BNA report, 1/30, p.25

Wastes:
Moving bed filters for waste treatment, 5/8, p.27
Waste pickle liquor neutralized at Bethlehem's Burns Harbor facility: Clean water flows from waste process, 6/12, p.89
Zinc waste source of lime for steelmaking, 2/27, p.31

Water Desalination:
Aqua-Chem builds flash type sea water desalting plant, 2/20, p.25
Aqua-Chem orders for plants, 3/6, p.25
Seawater desalting plant, Mexico, 6/5, p.25
Steel shells used at desalting plants, BLH report (reduces design and construction costs of flash distillation desalting plants), 5/1, p.81

Water Pollution:
Buffalo system cleans river, 4/10, p.25
Corplan plans pollution market study, 3/27, p.23
Flocculants in treating plants, interim control, 1/30, p.25
Inland outlines water pollution program, 4/3, p.19
Interior Dept. proposes 7% tax credit on control facilities, 1/30, p.21
Metallic elements found in fish aids studies, 3/13, p.23
Udall: Reports progress in pollution campaign, 6/5, p.21

Weighing: See Scales

Welded Steel Tubing:
Industry report, 1966, 1/16, p.90

Welding Equipment:
Industry report, 2/27, p.100 and 5/29, p.78

Welding (Feature Article):
Your big welding problems can be whipped industry surveyed, 4/10, p.53

Welding (Arc):
AMF Navy bomb production schedules speeded with two automoted processes (ten station, in-line welding system and a spray lubricating setup), 6/12, p.101
Antisplatter compound for nozzles of gas shielded welding guns, 2/20, p.27
Australian method to arcweld galvanize (filler metal plus carbon arc), 6/19, p.31
Automatic hand held gun adjusts its own arc, uniform spotwelding, 4/10, p.27
Automatic pipewelder, Dyna Surge, dev. by General Dynamics, marketed by Liquid Carbonic, 3/13, p.58b
Distortion cut with use of small wire, semiautomatic welding process (Thiele trucks), 3/6, p.71
Opposed arcs penetrate deeply, 1/16, p.23
Portable tripod speeds welding, shipbuilding yard, 5/1, p.24
Welder handles high carbon wire, BISRA, 5/1, p.25

Welding (Eddy Current):
Eddy current technique guides automatic welder, 4/10, p.31

Welding (Electron Beam):
AF welder for salvage items, 1/16, p.21
Developing technologies: Partial, nonvacuum systems widen range, 1/2, p.115
EB welding offers 30:1 time savings (W2-O made by Hamilton Standard), p.71
EB welder speeds computer memory array, 2/13, p.98
EB welding, landing mats, 1/16, p.21
EB welds pipe in partial vacuum, 4/24, p.25
EB welds thin foil seal over explosive charge in cap of ammonia battery, 5/1, p.24
Ford readies EB welder for production, similar one exhibited at AWS show, 4/24, p.35

Welding (Electroslag):
Russian tech. for making clad metals, 5/15, p.21 and 6/12, p.27

Welding (Friction):
AMF automates friction welder, ASTME Show, 5/8, p.84
Inertia welding dissimilar metals, 3/27, p.126a
Inertia welding hits metalworking market (Caterpillar Tractor), 4/24, p.67

Welding (Laser):
1967 development technologies, 1/2, p.102

Welding (Magnetic Force):
Magnetic force welding tames exotics, Battelle Pacific Northwest Lab, 1/30, p.61

Welding (Resistance):
Fabric welder cuts changeover time 25%, four wheel feed system, 6/26, p.61
Oldsmobile welds rear axles, 6/19, p.31
Ultrasonic unit checks spotwelds while they're being made, 3/27, p.72

Whiskers: See Metallurgy

Wire:
British (BNFMRA) speed copper wire making, refining and forming in one step—electrofined and Electrodeposited, 4/17, p.75
High strength wire used to guide TOW missile, 5/29, p.44
Skeletonizing components by using steel wire framework in place of sheets or solids, 1/9, p.44

Wire Products Plant:
Three firms build at Moose Jaw, Sask., 1/16, p.28

World Trade:
Cutler-Hammer sponsors symposium on world trade; speakers include George Bell, de Seynes (France), 5/15, p.56
Kennedy Round-negotiations (see Foreign Trade)

X Y Z

X-Ray:
Article: X-raying is portable, faster, easier, use at varied firms, 3/13, p.55
Backscatter for x-ray plates, 4/10, p.29
X-ray camera inexpensive, NBS, 6/5, p.31
X-ray film processor improved, 2/27, p.80

Yale University:
Dr. Chamberlain: Will industry be forced into education, 2/13, p.25

COMPANY INDEX

A

AEI Electronics Ltd.:
Moisture content of clay bonded mold sand checked with microwaves, 6/19, p.27

AMF Thermatool Inc.:
Exhibits: Production robots, frictionwelders, IE, 4/17, p.100

API Instruments Co.:
Monitor for electrodeposition of paint, IE, 2/6, p.75

Acheson Industries Inc.:
Silver bearing resin, electrically conductive, IE, 5/22, p.91

Acme Products: See Interlake Steel

Acoustics Associates Inc.:
Ultrasonic device aids burning of kerosine and natural gas, 4/10, p.29

Adhesive Engineering Co.:
Epoxy continuously exudes lubricant, IE, 5/22, p.89
Heat resistant adhesive excels in peel strength, IE, 5/15, p.66

Aerojet-General Corp.:
Explosive forming tank turrets, 4/17, p.29
Metal plugs replace chaplet weld repair in castings, 1/2, p.29

Aero-Motive Mfg. Co.:
Torque reels retract hanging hazards, IE, 2/13, p.111

Aeroprojects Inc.:
Ultrasonics for tube drawing operations, IE, 5/1, p.99

Affiliated Fund:
Trevor: Bright future predicted for steel, 5/8, p.75

Air Reduction Co.:
Builds giant flame cutter for Ryerson, 4/3, p.57
Welding gun adjusts its own arc, uniform spotwelding, 4/10, p.27

Airco Welding Products Div.:
Data search system cuts design waste, 6/19, p.69

Airpax Electronics Inc.:
Miniature pickup checks speed of rotation, IE, 2/6, p.77

Ajax Magnethermic Corp.:
Continuous casting unit for Halstead, hollow copper billets, 3/27, p.126g

Alan Wood Steel Co.:
Adds two pressure vessel plate steels, IE, 3/6, p.96

Alcan Aluminum Corp.:
Adds cold mill to sheet mill at Oswego, N. Y., 6/26, p.67

Alcan Aluminum Ltd.:
Capital spending, 3/27, p.31

Algoma Steel Corp. Ltd.:
Titanium casting weighs 48 lb. jet engine hub frame, 1/9, p.23

Allegheny Ludlum Steel Corp.:
Hot work die steels H-11 and H-13, used in ausforming, 4/17, p.55
Salesman (Skehan) solves downtime problem: Tool steel socket screws for hot work dies, 3/20, p.76
Startup of Natrona, Pa., L-D steelmaking facility, 2/20, p.21

Alliance Machine Co.:
Heat-treating furnace saves by design (divides furnace in half with partition, special refractory lining), 4/10, p.82

Allied Machine Tool Systems:
Cam actuated table upgrades machines, IE, 3/27, p.135

Alling-Lander Co. Inc.:
Computer system cuts gear manufacturing costs, an internally programmed ledger card, 6/19, p.82

Allis-Chalmers Mfg. Co.:
Builds pelletizing plant, Sweden, 6/5, p.31
Capital expenditure hike, 3/6, p.21
NEMA rerate motors, IE, 3/20, p.82
Ro-Pac packaged rotary compressor hookup, IE, 5/15, p.68

Almco-Queen Products:
Automatic deburring-finishing unit, IE, 2/13, p.108

Alpha Metals Inc.:
Maraging steel extends ram life, 5/15, p.27

Altec Mfg. Co. Inc.:
Hydraulic press brake for combined operations, 4/24, p.72a

Aluminum Co. of America:
Acurad studied, 1/23, p.32
Alcoa molds its future—young managers move into top level decision making (STEEL visits F. J. Close, chairman), 1/9, p.39
Alcoa shows new interlock ingot, continuous casting, 4/10, p.27
Aluminum tubes cold formed, Yoder roll former, New Kensington, Pa., Wks., 1/16, p.17
Close: Cites market area gains, 5/1, p.24
Forms subsidiary, Alcoa Castings Co., 1/9, p.24
Huge mirror cast for observatory, 2/13, p.31
Study on future of can container, trucktrailer shipping, 4/24, p.23

Aluminum Co. of Canada:
Newfoundland plant for high tension cables, 2/6, p.31

Amchem Products Inc.:
Phosphate coat aids cold forming, IE, 4/10, p.113

Amercon Corp.:
Plans merger with Gen. Precision Equipment, 2/6, p.32

American Bosch Arma Corp.:
How to groom a computer for the management team, 1/16, p.52

American Can Co.:
Aluminum can rectangular (luncheon meat), ring pull-tab, 6/12, p.21

American Cyanamid Co.:
Adhesive laminated metals shortcut fabricating costs, a guide to forming, joining, 1/30, p.56

American Electric Fusion Corp.:
Tube mill electrode, IE, 5/15, p.68

American Induction Heating Corp.:
Automatic bar heater, IE, 4/3, p.89

American-International Aluminum Corp.:
Buys Black Rock Mfg., 3/27, p.27

American Machine & Foundry Co.:
Automated welding processes speed Navy bomb production schedules, 6/12, p.101
Food part dispensers, IE, 4/3, p.79
Friction welder automated, 5/8, p.83

American Metal Climax Inc.:
Amax forecasting tool, input-output table for nonferrous demands, 5/22, p.21
U. S. Metals Refining: Copper anodes aid bright acid plating, IE, 5/15, p.68

American Motors Corp.:
Abernethy: Marketing problem for 1967, 1/2, p.35
Chapin challenges automotive 'habits', 1/16, p.20
Chapin sees psychological rebound in spring, 3/13, p.21
Management shakeup leaves unanswered questions, 1/23, p.34
Managing by Objectives: Wissman, manager of education and training, 3/6, p.73
Price gap shortened between U. S. compacts and imports, 2/27, p.19

American Optical Co.:
Moonlight shift, overtime for employees, 3/20, p.21

American Telephone & Telegraph Co.:
OD program: AT&T tackles organization development, 6/19, p.77
Suggests launching interim satellites for communication-TC coverage, 1/9, p.13
Romnes: Overseas communication service, streams of pulses transit faster, 5/1, p.23

Ametek Inc.:
Acquiring Calmec Mfg., 1/30, p.32
Enters fluidics with low pressure valves, IE, 3/6, p.96
Instrument measures surface phenomena, IE, 2/20, p.84

Amsted Industries Inc.:
Buys Litho-Strip Corp., 1/2, p.32

Anaconda Wire & Cable Co.:
Communications cable links train control systems, Chicago elevated line, 4/17, p.90c

Andrew Engineering Co.:

Electroformed dies, 6/26, p.27

Buhr Machine Tool Co.:
Transfer line units, IE, 1/23, p.68
Unit machines cylinder blocks, IE, 1/30, p.67

Bullard Co.:
Full-Mold process halves leadtimes in prototype castings, 3/6, p.69

Bundy Corp.:
Buys National Rolling Mills, 3/27, p.27

Burgmaster Corp.:
Markets multiturret drill, IE, 6/19, p.87
Multiturret drill makes three parts simultaneously, 5/15, p.25

Burroughs Corp.:
Disc files augmented with 12 models, IE, 1/30, p.70

Butler Mfg. Co.:
Space frame less fasteners (Triodetic) dome, 3/13, p.25

C

Cameron Iron Works Inc.:
Evaluate carefully for jet hole drilling, 5/8, p.84
Woodcock: Tool design needs cited at tool show, 5/1, p.50

Camloc Fastener Corp.:
Consolidation plan with Rex Chainbelt, 5/1, p.32

Cammann Mfg. Co. Inc.:
Permanent magnet base on metal disintegrators, IE, 4/17, p.107

Campbell Auto-Pour Engineering:
Automatic pouring system, gas moves metal, IE, 6/5, p.72

CEJ Gage Co.:
Magnetic surface is sine plate, IE, 4/17, p.106

CRC-Crose International Inc.:
Flame cutting-beveling machine for pipe and tubing, IE, 2/13, p.102

Calgon Corp.:
Inhibitor controls corrosion of copper-aluminum, IE, 5/22, p.89

Carborundum Co.:
Alloy resists grinding on lapping machine, Logan, O., plant, 6/12, p.106e*
Buys Metal Pumping Services, 2/13, p.32
Enters graphite electrode market, new Hickman, Ky., plant, 5/1, p.69
Marketing aid, Check Mate Selector System, 5/8, p.58

Carpenter Steel Co.:
Merger with Eastern Stainless, 6/26, p.23

Case Co., J. I.:
Signs contract with UAW, 1/16, p.17

Casting Engineers:
C. H. Porter: Investment casters tally gains of recent years, recommended alloys for applications, 6/12, p.99

Casting Materials Co. Inc.:
Licenses foundries to use Gazal process for desulfurization of iron, 1/2, p.32

Caterpillar Tractor Co.:
Inertia welding, units marketed with arrangement with Special Machine Co., 4/24, p.67
Profit squeeze, 2/27, p.19
Siebert addresses Chicago conference on employment problems (open housing), 6/12, p.19

Ceco Corp.:
Plastic coated steel developed, Cecolad, 2/6, p.68e*

Celanese Coatings Co.:
Epoxy curing agents, IE, 2/20, p.85
Jones-Dabney auto low-film dipping primer, 6/19, p.93

Centriblast Corp.:
Shredder, scrap handling, IE, 1/9, p.51

Centrifugal & Mechanical Industries Inc.:
Centrifuges chips, makes coolant re-usable, IE, 3/20, p.83

Cerro Corp.:
Merger considered with Pickands Mather, 4/3, p.21

Cerro Copper & Brass Co.:
Horizontal rod extrusion press, 5/15, p.28

Channellock Inc.:
Furnace and salt bath austemper pliers, 6/12, p.63

Chemetron Corp.:
Thicker metals welded with fine diameter wires, IE, 5/15, p.89

Chicago Extruded Metals Co.:
Automated billet handling boosts output, 2/27, p.74

Chromalloy American Corp.:
Machinable carbide uses stainless matrix, IE, 3/13, p.63
New Ferro-Tic steel bonded carbide M-6, IE, 2/6, p.78

Chrysler Corp.:
1968 timing schedule (chart), 1/16, p.30
Antitheft devices, 5/8, p.35
Boyd: Growing need for skilled manpower, 1/2, p.35
Computer bids for bigger manufacturing role, Fred Osann, seminar speaker, 5/22, p.37
Computer system cuts part and inventory handling, 6/26, p.62
Electric car, new approach studied (hybrid system), 3/6, p.25
Elgass (researcher) predicts auto production to 1980, 6/19, p.35
Foundry, computerized cupola, 6/12, p.31
High gloss coating enamel, IE, 2/13, p.111
Missouri truck assembly plant, St. Louis, 2/20, p.37
Sales, investment rise; profits drop, 2/27, p.35

Cincinnati Lathe & Tool Co.:
Unit handles work 100 in. long, 40 in. wide, IE, 6/19, p.88

Cincinnati Mfg. Corp.:
U. S. Burke: Two milling machines displayed, 5/1, p.96
U. S. Burke: Heavy duty millhydraulic table feed, 4/3, p.87

Cincinnati Milling Machine Co.:
Builds large machine tools for onsite assembly at Boeing plants, 5/22, p.71
EDM with NC, IE, 3/13, p.60
HyPowermatic mills, features, IE, 4/10, p.103
Single roller unit spins 60 in. blanks, IE, 6/19, p.87
Ten-axis control on profiler promised, IE, 3/27, p.127

Cincinnati Shaper Co.:
20-ton ejection capacity on compacting press, IE, 4/24, p.82
Auto-Shear, cycle press brake, and HERF exhibited, IE, 4/17, p.105
Punchmatic unit, IE, 4/3, p.77

Claremont Polychemical Corp.:
Gold paint resists tarnishing, IE, 2/13, p.100

Clark Co. Inc., J. C.:
Micro Drill press sharpening improved, IE, 1/23, p.70

Clark Equipment Co.:
Electric lift truck, three wheeler, tight turner, IE, 6/26, p.77

Cleereman Machine Tool Corp.:
Acquired by Kearney-Trecker, 4/17, p.31

Cleveland Automatic Machine Co.:
Diecaster features, IE, 4/3, p.81

Cleveland Machine Controls Inc.:
Gearmotor drive Series 60 adjustable at low speeds, IE, 6/12, p.114

Clevite Corp.:
Brush Instruments portable surface measurement system, IE, 1/30, p.72
Buys plant in Calif. to house Brush Instruments' operations, 1/30, p.32
Plans new corporate headquarters and research center, 5/22, p.32

Cleveland Twist Drill Co.:
Buys Eastern Machine Screw, 2/13, p.32

Coleman Engineering Co.:
NC adapts to existing mills, IE, 4/3, p.90

Columbia Steel & Shafting Co.:
Summerill installs ultrasonic tube drawing unit, 6/19, p.25

Combustion Engineering Inc.:
$25 million expansion for nuclear facility in Tenn., 4/17, p.31

Connellsville Corp.:
Coke quencher, 6/5, p.31

Continental Machine Co.:
Hydraulic blade feed control for pipe-tube cutoff unit, IE, 1/16, p.71

Continental Steel Corp.:
Merger plans with Macwhyte Wire Rope, 3/27, p.27

Control Data Corp.:
Control data punches cards column by column, 5/8, p.89

Coors Porcelain Co.:
Alumina ceramic, IE, 5/29, p.62

Copper Range Co.:
Modules speed bulk handling, White Pine, Mich., mine, 1/16, p.64

Copperloy Corp.:
Mobile yard ramp, IE, 3/6, p.101

Copperweld Steel Co.:
Computer furnace control-power demand, installation by Bailey Meter, 1/30, p.55

Copperweld Steel & Wire Co.:
TV shows 'inside story' of heating furnace at Aristoloy Steel Div., 2/20, p.78

Corhart Refractories Co.:
Added thickness lengthens open hearth roof life, 2/13, p.21

Corning Glass Works:
Composite buoyancy material, IE, 6/12, p.110
Fluidic devices control fluidic production, 1/2, p.128
Fluidic control for glass press, 2/13, p.27

Crane Co.:
Metering pumps have pulsationless flow, IE, 5/1, p.109

Crawford Steel Foundry Co.:
Ten second metal analyses for carbon content while metal is still liquid, 2/27, p.80c

Cross Co.:
Automated bolt hole operation, IE, 3/13, p.61
Center column machines, IE, 1/16, p.65
Cylinder boring machine for special needs of engine builder, IE, 6/5, p.72

Crown Controls Corp.:
Lift truck economical, IE, 4/10, p.113
Straddle stacker, IE, 3/27, p.131

Crucible Steel Co.:
Asks Ill. Supreme Court permission to hold meeting of stockholders, 6/19, p.23
Bobb elected president, 5/1, p.21
Stainless 430F plus-X free machining type, IE, 3/20, p.78

Cummins Engine Co. Inc.:
Miller: Business must aid social reform, 3/20, p.23

Cutler-Hammer Inc.:
Batching scale, IE, 4/10, p.106
Process control designed around a tuning fork standard, IE, 4/3, p.78
Sponsors symposium on world trade, speakers include George Ball, de Seynes, 5/15, p.56

Cyclops Corp.:
InFab operating cost down (inert gas processing mill), 3/13, p.21

D

DK Mfg. Co.:
Material handling, Bronco Pack Horse, IE, 3/20, p.82

Danly Machine Specialties Inc.:
Builds synchronized stamping presses for Chevy, 1/16, p.49
Displays air presses, die sets, IE, 4/17, p.106
Triple action press, IE, 1/23, p.68

DeHoff Corp.:
Knee type gun drill, IE, 1/16, p.70

Dentronics Inc.:
Gages use tungsten-platinum alloy, 6/19, p.27

Despatch Oven Co.:
Installs rooftop bake ovens at Whirlpool, 3/27, p.74
Teflon curing eased by two-oven system, in use at Regal Ware Inc., 4/17, p.98b

Detecto Scales Inc.:
Ultrasonic check of package weight, size, IE, 3/6, p.101

Detroit Broach & Machine Co.:
Automated pot broaching setup, IE, 4/3, p.81
Broach handles automotive slip disc yokes, IE, 1/16, p.65
Small broaching unit, IE, 3/27, p.135
Special horizontal broach speeds lock assembly, IE, 1/2, p.158

Detroit Steel Corp.:
Adaptive control (GE) upgrades hot rolling mill, Portsmouth plant, 2/6, p.64; 2/20, p.32

DeVilbiss Co.:
Electrodip coating, IE, 1/23, p.66

DeVlieg Machine Co.:
Displaying cutter grinder, cutting tools, IE, 4/3, p.82
Markets end mill that screws into a thread chuck, 1/23, p.29
Microbore markets Clarkson chuck, IE, 6/19, p.90

Diebold Group Inc.:
Computers installed in Europe, 5/1, p.31

Dine Inc., Lester A.:
Instamatic camera, 4/3, p.60

Dings Magnetic Separator Co.:
Magnetic sheet separator, IE, 1/2, p.159

Divine Bros. Co.:
Foundry grinding lathe uses abrasive belts, IE, 4/10, p.109

LaSalle Machine Tool Inc.:
DigiTrol visual instant readout system, IE, 6/5, p.75

Latrobe Steel Co.:
Building foundry for precision casting-high grade steels, 2/6, p.32
Continuous, billet heating furnace aids decarbing, 4/17, p.90e*
Mold shrinkage for cast-to-size dies, guidelines, 1/9, p.19
Refractory pouring tube aids stream degassing, vacuum melting furnace, 4/10, p.68
Spending plans for new mill equipment, 3/13, p.28
Workman: Imports eat steelmakers' bread and butter market (specialty steels), 5/29, p.79

Leal Co.:
Bonding benefits with one part epoxy packed for spraying, IE, 5/8, p.99

Lebanon Steel Foundry:
Preformed ceramic cores tame complex castings, 3/13, p.58d

Leeds & Northrup Co.:
Alloys analyzed fast with new method, 3/13, p.17
Thermocouple device used in melt analyses at foundries, 2/27, p.80c

Lees-Bradner Co. Inc.:
Sold to White Consolidated, 3/6, p.32

Leland-Gifford Co.:
Rail type drilling unit for large parts, IE, 3/27, p.136

Lepel High Frequency Laboratories Inc.:
RF transfer switch, remote control, IE, 3/27, p.129

Leteo Inc.:
Shear can slice six No. 11 bars, IE, 5/29, p.60

Lima Electric Motor Inc.:
Frequency generators, IE, 1/2, p.161

Lindberg Engineering Co.:
Induction scanning equipment, 2/13, p.89

Lindberg Hevi-Duty: See Sola Basic

Linde Div.:
NC for TIG welder, IE, 4/3, p.89
Welding problems can be whipped: John Galbraith, 4/10, p.53
Wire feed behind TIG torch supplies hot filler metal in new welding system, cover pic, 4/10, p.53

Link-Belt Co.:
Buying Stearns Electric, 1/30, p.32

Lipe-Rollway Corp.:
Bar feed devices for short piece problems, IE, 1/2, p.154

Liquid Carbonic Corp.:
Markets automatic pipewelder, Dyna Surge, 3/13, p.58b

Lithium Corp. of America Inc.:
Merger plans with Gulf Sulphur, 2/6, p.32

Litton Industries Inc.:
FDL (fast deployment landing) ships, development, 3/13, p.58a
Hewitt-Robins housings stronger on worm drive, IE, 3/13, p.63

Lockheed Aircraft Corp.:
Army to get VTOL prototypes, 5/15, p.21
Automated tape preparation, 1/2, p.130
C-5A, titanium use, 6/5, p.23
Commercial market interest, 3/13, p.27
IMPAC to be updated by 'universal' computer, 5/22, p.67
Long titanium panels sought, 1/23, p.29
Tower whirls rotors in test, 4/24, p.32

Lockheed-Georgia Co.:
Computer helps managers subdue giant AF C-5A, 1/30, p.49
Computer simulates wind tunnel conditions, 4/24, p.29

Lockheed Propulsion Co.:
Electrodeposition of metal onto prefab assembly for rocket motor case, 5/15, p.15

Loctite Corp.:
Adhesive applicator, IE, 3/6, p.95

Lodding Engineering Corp.:
Vibrelief machine, 6/26, p.59

Loewy Robinson Engineering:
Three rolls make seamless tube, 2/13, p.27

Lok-Blok Inc.:
Uses crushed auto scrap for building concrete blocks, 4/17, p.25

Lotecontrol Corp.:
Radiant heating panels, foil and epoxy film lamination, steel foil, 5/1, p.59

Lovejoy Inc.:
Free engineering services pays off, 6/19, p.72

M

3M Co.:
Business meetings costs, guidelines, statistics service offered, 5/9, p.64
Coated abrasive cloth, IE, 3/20, p.82
Metal fastener for high temp., IE, 2/6, p.79
Structural adhesive, Scotch-Weld Brand, IE, 6/5, p.70

MSL Industries Inc.:
Plans to be subsidiary of Montgomery Ward, 5/22, p.32

MacDermid Inc.:
Electrocleaner, IE, 3/20, p.80
Polypropylene enters chrome plating arena, 5/15, p.21

Macor Corp.:
Epoxy coating produced, corrosion resistant, 5/8, p.71

Magnaflux Corp.:
Aides to nondestructive evaluation, 2/13, p.99
Automatic test unit for tubing trims scrap losses via eddy current testing, 3/6, p.56
Brittle coating permits stress evaluation, IE, 4/10, p.104
Eddy current tester for Ford transmission shafts, 6/12, p.68
Partek filtered particle inspection method, 4/3, p.60

Builds slabbing mill for Holland, 3/13, p.28
Contracts for Japanese cold mill, 4/10, p.32
Hot strip mill edger, IE, 6/26, p.82

Meta-Therm Corp.:
Dry film lubricant, IE, 3/20, p.78

Metal Bank of America Inc.:
Copper usage declines in utility market, 6/5, p.25

Metco Inc.:
Bronze bearings flame sprayed with metallizing wire, 2/27, p.80
Powder metal fed at 16 lb per hour (plasma flame spray gun with new feeder), 6/12, p.106u*
Spray bonding tip, 4/3, p.60
Thermospray combustion gun, IE, 4/3, p.78

Midland-Ross Corp.:
Blow mold plastic gas tanks, Waldron-Hartig, 2/27, p.81
Buys Russell & Stoll, 1/16, p.28
National Castings Div.: Rubber-steel pads protect heavy equipment, 1/16, p.60
Surface Combustion equipment aids fastener maker (Elco), molecular sieve generator supplies nitrogen for heat treat furnace, 5/15, p.58

Miles Associates:
L. D. Miles, originator of value analysis, route to profits, 5/22, p.57

Milford Rivet & Machine Co.:
Riveter adapted to delicate ceramic parts, IE, 5/8, p.90

Miller-Stephenson Chemical Co. Inc.:
Strippers soften, remove epoxies, IE, 1/9, p.54

Minnetech Labs Inc.:
Fluid dispenser, 5/15, p.55

Mitron Research & Development Co.:
Titanium casting facility, joint venture, 2/6, p.32
Titanium casting method aids forgings, 3/6, p.23

Mobil Oil Corp.:
Program cuts hydraulic maintenance costs, 1/30, p.64f

Molded Fiber Glass Body Co.:
Mechanization boosts production, cuts labor time, 3/20, p.69

Monsanto Co.:
Heat transfer fluid, Therminol 66, 1/8, 6/19, p.92

Moore Products Co.:
Pneumatic gaging inspects, sorts small gears, IE, 6/5, p.69

Morton Co.:
NC machine features round ways, bearings, IE, 1/9, p.51

Montgomery Ward & Co.:
MSL Industries, subsidiary plans, 5/22, p.32

Motorola Inc.:
Closed circuit TV for Aristoloy Steel Div., 2/20, p.78
Profit sharing report, 2/20, p.68

Murray-Way Corp.:
No. 4 finish grinders produce on coil or sheet stock, IE, 2/20, p.81

N

Nametre Co.:
Acoustic spectrometers check materials, 5/15, p.54

National Broach & Machine Co.:
Improved pot broach, IE, 4/10, p.109
Red Ring unit burnishes, straightens hardened gears, IE, 3/13, p.59

National Can Co.:
Stuart: Tinfree steel lowers cost, 5/15, p.17

National Cash Register Co.:
Laser heat focused on thin glass makes permanent documents, 4/3, p.23

National Castings Div. See Midland-Ross

National Cylinder Gas: See Chemetron

National Electric Welding Machine Co.:
Fabric welder for U. S. Steel's Joliet Wks., 6/26, p.61
Welder includes bench loaded fixtures, IE, 3/20, p.82

National Forge Co.:
Milling giant whittles crankshaft machining time, GFM, Austrian unit, 1/16, p.54

National Machinery Co.:
Beam transfer unit, IE, 2/13, p.106

National Rivet & Mfg. Co.:
Does it pay to switch tool steels, carbide usage? 4/3, p.28

National-Standard Co.:
Domestic wiremaker combats import threat: Acquisitions, diversification, 2/27, p.70

Nelson Stud: See Gregory Industries

Lucas: Surface verification without disturbing workpiece, 2/13, p.91

New York Air Brake Co.:
Fortune: Hydraulic markets to boom, 1/2, p.27

Niagara Machine & Tool Works:
Modules aid in forming from coils, IE, 6/12, p.107
Power squaring shears, new line, IE, 5/22, p.87

Nilson Machine Co., A. H.:
Fourslide adds versatility to production of forged stampings, IE, 5/29, p.57

Noble & Westbrook: See Bristol Brass

Nord Aviation (France):
Mach 3 turbo-ramjet dev., 5/8, p.88a

Nordson Corp.:
Air valve, four-way, IE, 3/27, p.128
Computer program (Fortran IV) for inventory, 1/16, p.20
Future NC equipment will demand thorough process changes, remarks at Westec Expo, 3/20, p.61
Magnetic force welding tech., 1/30, p.61
Merger considered with Rockwell-Standard, 4/3, p.21
Research submarine for ocean systems, 5/8, p.32
Rocketdyne Div. with GE: Computerized machinability data program, 1/30, p.64c*
Rocketdyne Div.: Computer simulates on production line, 4/17, p.98a*
Titanium billets built via diffusion bonding, 1/16, p.15
Vibrations improve buttwelds, 1/2, p.29

Northrop Corp.:
Three new casting alloys under study combine strength, economy (aluminum-copper-nickel), 1/23, p.64

Northwest Galvanizing Co.:
Complete expansion, 6/19, p.102

Norton Co.:
High speed, high pressure grinding (metal removal) hikes output, wheel life, 5/1, p.52
Roll grinding wheels, IE, 4/10, p.113
Vitrified bonded grinding wheels, new dev., 2/13, p.31
Zig-zag blender closes loop and solves moisture problem, 5/8, p.86

Northwestern Tools Inc.:
Clamping kits, new sizes, IE, 4/17, p.104

Nypel Inc.:
Abrasive encapsulated in nylon brush bristle, IE, 1/16, p.69

O

Oakite Products Inc.:
Liquid removes aluminum smut, IE, 1/16, p.66

Ocean Resources Inc.:
Dr. John Mero surveyed by STEEL: Ocean mining, where we stand, 5/15, p.45

Ocean Systems Inc.:
Sub lets divers work deeper, 2/27, p.32

Ohio Crankshaft Co.:
Tocco heat induction package, IE, 3/27, p.129
Tocco power package; IE, 1/19, p.56

Ohmart Corp.:
Strip coating gage, Florescoat system, 6/5, p.54

Olin Mathieson Chemical Corp.:
Line of pneumatic, air-hydraulic and manual rivet tools exhibited, IE, 5/8, p.91
Rigid urethane foam sheathed in aluminum forms lightweight arch, 3/27, p.25

Olivetti S.p.A.:
Computer diemaking process, NC, 1/9, p.43

Optomechanisms Inc.:
NC multiple head drilling machine, IE, 6/26, p.77

Oregon Metallurgical Corp.:
Casts titanium impeller pump housing, 5/29, p.53
Titanium propellers cast from alloy for hydrofoil gunboat, 3/20, p.31

Ormet Corp.:
Expands facilities, Hannibal plant, 4/10, p.29

Otis Elevator Co.:
Buys York Mfg., 5/29, p.26

P

Pacific Data Systems Inc.:
NC computer programmer, IE, 3/27, p.128

Pacific Northwest Laboratory:
Magnetic force welding tames exotics, 1/30, p.61

Pacific Press & Shear Corp.:
Hydraulic press brake, operations combined, 4/24, p.72a

Pallflex Products Corp.:
Uses cited for composite, 2/27, p.27

Paragon Tools:
EDM converted planer machines plastic molds and forging dies, 2/20, p.78d

Parker-Hannifin Corp.:
Scott Rogers predicts hydraulic component sales, 5/8, p.21

Patterson-Kelley Co. Inc.:
Zig - zag blender for making abrasives for grinding wheels, 5/8, p.86

Pennsalt Chemicals Corp.:
Stokes Plastics, encapsulates parts in silicones, epoxies, IE, 1/16, p.72
Stokes Plastics, continuous injection molder, IE, 1/2, p.151

Pereny Equipment Co. Inc.:
Control on atmosphere furnace, IE, 1/23, p.66

Perkin-Elmer Corp.:
Laser alignment systems, 5/15, p.54

Pettibone Mercury Corp.:
Electric fork lift, turning radius, IE, 4/3, p.77

Pfizer & Co., Chas.:
Plant will produce pyrolytic graphite, 4/17, p.90

Phelps Dodge Corp.:
'Management' subsidiary set up for sales of copper, aluminum, etc., 1/9, p.24

Philco-Ford: See Ford

Phoenix Steel Co.:
Barrel furnaces aided by cast alloy rolls, 4/10, p.98d*

Pickands Mather & Co. International:
Bentonite deposits investigated for pelletizing plant, 2/20, p.25
Merger considered with Cerro, 4/3, p. 21

Pines Engineering Co.:
NC bender, IE, 4/24, p.78
NC bender features adaptive springback control, ASTME display, 6/5, p.59

Pittsburgh Heppenstall Co.:
Crane suspended coil tilter for Washington Steel plant, 6/5, p.60

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment*

Pittsburgh Plate Glass Co.:
Marketing areas outlined, 5/29, p.25

Pittsburgh Steel Co.:
Higher scrap charge for BOFs with calcium carbide, 4/24, p.25

Polymer Corp.:
Steel printed circuit boards encapsulated with epoxy via fluidized bed system, 3/20, p.29

Pontiac Tool Co.:
Pick-off milling unit for planer, IE, 2/6, p.81

Posi-Trac Safety Tire Corp.:
Marketing area for safety tires, 4/3, p.31

Possis Machine Corp.:
Automatic epoxy spray coater, IE, 2/13, p.104

Potter Instrument Co. Inc.:
NC termed must for continued operation: Erd conference speaker, 5/8, p.88f

Prab Engineering Corp.:
Hydraulic grab handles heavy coils, IE, 2/6, p.76

Precision Castparts Inc.:
Cast - to - size dies, new facility, 5/8, p.29
Vacuum induction furnace, 1/16, p.28

Precision Tube Co.:
Buys Howie Corp. Tube Fabricating Div., 4/10, p.31

Precision Welder & Flexopress Inc.:
Magnetic force welders made for Pacific Northwest Lab. and North American Aviation, 1/30, p.61
Projection welds 500 boards per hour, IE, 6/12, p.109

Press & Shear Machinery Co.:
Metalworking press makes own dies, 3/6, p.29

Pressure Blast Mfg. Co.:
Dry blast unit effective on heading dies, IE, 6/26, p.80

Pressure Technology Corp.:
Dr. Bobrowsky: High pressure forming, a formidable future, 5/1, p.54

Prime-Mover Co.:
Low lift pallet truck, IE, 2/27, p.83

Princeton Creative Research Inc.:
Design engineers—how to motivate the middle man, 5/8, p.61

Producto Machine Co.:
Improvements aid punching unit, Perf-O-Mator, IE, 6/5, p.69

Pyles Industries Inc.:
Dispensing equipment-two part fluids, IE, 6/12, p.108

Q

Queensboro Transformer & Machinery Corp.:
Automatic voltage drop compensator, IE, 6/19, p.88
Furnace transformer installation cost low, IE, 5/29, p.61

R

R&D Metals Corp.:
Purchased by Rochester Iron & Metal, 1/9, p.70

Racine Hydraulics & Machinery Inc.:
Holding valves, IE, 3/27, p.130
Marketing exec. Petersen speaks at West Coast conference, 5/1, p.77

Radiant Lamp Corp.:
Mercury vapor lamp, IE, 3/20, p.79

Radio Corp. of America:
Builds special straightening machine which also inspects automotive drive pinionshafts, 3/20, p.73
Sarnoff: Consumer electronics might rival autos, 6/19, p.23
Solid state circuit-light, lasers, 6/26, p.23

Ransburg Electro-Coating Corp.:
Sensing device for paint spraying, IE, 3/13, p.62

Reed Inc., John W.:
General purpose press, IE, 6/5, p.71

Reed Rolled Thread Die Co.:
Deburring tool fits flat die thread rollers, IE, 5/15, p.66

Regal Ware Inc.:
Teflon curing eased by two-oven system, 4/17, p.98b

Reliable Steel Plate Co.:
Flame cutting on giant scale (shakeout table for automotive foundry), 6/5, p.58

Reliance Electric Co.:
DC motor for tough jobs, IE, 3/27, p.132
Luke: Think 'new' to stay ahead, 1/2, p.32
Reeves Motodrive line, right angle gearing, IE, 6/26, p.79
Variable speed drive, IE, 1/23, p.71
Vibration analyzer, IE, 2/27, p.84

Reliance Steel & Aluminum Co.:
Electronic shears cut time and improve tolerances, L. A. plant, 6/12, p.106a*

REM Sales Inc.:
Brooke machines, boring units, IE, 2/13, p.104

Remex Electronics:
Position displays, IE, 4/3, p.87
Reader-spooler on punched tape, IE, 2/27, p.86

Republic Steel Corp.:
Gadsden, Ala., new plate and strip rolling facilities, 1/9, p.73
Plate mill (134 in.) completed, Gadsden, Ala., 3/6, p.32
Profit dip, 1st quarter, 5/1, p.19

Reuland Electric Co.:
Helical gearbox, double end outputshaft, IE, 5/15, p.66

Revere Copper & Brass Inc.:
Aluminum joiner bulkhead sections for Navy vessels, 6/12, p.65
Gun welds tube to tube sheet joints, IE, 5/15, p.68

Revolvator Co.:
Walk-along truck for cable reels, IE, 6/26, p.82

Rex Chainbelt Inc.:
Consolidating with Camloc Fastener, 5/1, p.32

Rexall Chemical Co.:
Thermoplastics, lower cost, 5/29, p.23

Reynolds International Inc.:
Buys Belgian aluminum extrusion-foil plant, 2/20, p.25

Reynolds Metals Co.:
Air conditioner clutch coils of aluminum for Eaton Yale, 3/13, p.31
Swage-Bond process joins aluminum pipeline, 2/13, p.27

Ridge Tool Co.:
Bolt cutters, IE, 1/16, p.70

Roblin Steel Corp.:
Merging Erie Forge, 5/32, p.32
Swing forge ties in with electric furnace and continuous casting at Dunkirk plant, 2/13, p.80

Robotron Corp.:
Single spindle machine automatic, IE, 1/20, p.66

Rochester Iron & Metal Co.:
Buys R&D Metals, 1/9, p.70

Rockwell-Standard Corp.:
Considers merger with North American Aviation, 4/3, p.21
Forms parts firm in Chile, agreement with two firms there 4/10, p.32

Roller Shear Corp.:
Roller crop shear takes only 16 in. in line, IE, 1/2, p.154

Rominda Chemicals Inc.:
Spray degreasing-cleaning unit, IE, 6/26, p.80

Ross Gear: See TRW

Royer Foundry & Machine Co.:
Mold dump conveyor, low profile design, IE, 4/10, p.108

Ryerson & Son Inc., Joseph T.:
Expansion program, 3/13, p.27
Flame cutting machine a giant, 4/3, p.57

S

SKF Industries Inc.:
New bearing wear control suggested, 3/13, p.23

St. Joseph Lead Co.:
Gamma rays check level in zinc smelting furnace, 5/8, p.69
Lead alloy excels in creep strength, IE, 5/8, p.91

St. Regis Paper Co.:
Self-stick polyethylene protects metal surfaces, IE, 2/20, p.84

Sandia Corp.:
Digitizer converts photo to data, 6/12, p.29
Mobius loop makes better resistor, 1/16, p.21
Q-switch ups laser output, 4/24, p.27
Technique improves laser measure, minute changes detected, 6/5, p.29

Schauer Mfg. Corp.:
Collet type speed lathe and cross slide air operated, IE, 4/17, p.104

Schnitzer Steel Products of California:
Scrap processing plant planned, 6/19, p.110

Scientific Columbus Inc.:
Transducer monitors motor input power, IE, 6/12, p.117

Scully International Inc.:
Exhibits antifriction products for precision linear travel, IE, 5/8, p.94

Sealectro Corp.:
Drum programmer controls air flow, IE, 1/30, p.66

Seco Electronics Inc.:
Three phase controls for motors, IE, 2/27, p.82

Selas Corp.:
Continuous, billet heating furnace for Latrobe Steel, gas fired, barrel-type, 4/17, p.90e*

Selectrons Ltd.:
Plating copper onto aluminum rolls could cut costs, 3/6, p.86a

Sentry Co.:
Furnace protects steel surfaces, 5/1, p.98

Service Diamond Tool Co.:
Brinell testing machine takes 6 ft work, IE, 1/2, p.154

Service Filtration Corp.:
Compact filter protects hydraulics of abrasive particles, IE, 6/5, p.76

Setco Industries Inc.:
Surface grinder handles electrolytic work, IE, 3/27, p.135

Sherritt Gordon Mines Ltd.:
Nickel refining services on toll basis, 1/9, p.73

Siltronics Inc.:
EDM machines, IE, 3/13, p.61

Simplex Tool Corp.:
Bridge type boring unit for end loading, IE, 3/13, p.65

Skil Corp.:
Builds power tool manufacturing plant at Wheeling, Ill., 6/12, p.31

Smith Associates:
Boring, facing head for vertical mills, IE, 4/3, p.83

Smith Inc., James Campbell:
Prefab steel mill pulpit for hot strip mill in "Chicago area", 1/23, p.27

Smith Corp., A. O.:
Ceramic coating stands heat, 6/12, p.25
Ends edge coating corrosion of glass sheet, 1/16, p.57
Pipe belt conveyor, 6/5, p.32
Resulfurization aids machining of P/M parts, 6/12, p.31

Snyder Corp.:
Transfer line (1,000 pieces per hour) for Pontiac, 6/26, p.74
Transfer machine, milling and broaching, IE, 3/30, p.78
Vertical boring machine finishes rail wheels, IE, 4/3, p.86

Sola Basic Industries:
Lindberg Hevi-duty: Plasma resistance furnace for superalloys, IE, 6/26, p.78

Soundrive Co.:
Bodine process—sonic power (controlled vibration), 4/17, p.98a*

Southwestern Engineering Co.:
Sonic power: Shaker finishes parts (cover pic), 6/26, p.55

Spacerays Inc.:
Pulse lengths added to laser welder, IE, 6/12, p.108

Sparton Corp.:
Vendor rating system pays off, 6/12, p.25

Special Machine Co.:
Inertia welders assembled for Caterpillar, 4/24, p.67

Speco Inc.:
Aluminum paint resists heat, salt, IE, 6/12, p.113

Sperry Rand Corp.:
Univac computers, fast printer, IE, 3/27, p.133
Univac subsystem for storage, IE, 2/6, p.79

Spincraft Inc.:
Metal spinning tools up for space age jobs, 3/6, p.58

Spraymation Inc.:
Hand gun applies hot melt adhesives, IE, 5/29, p.60
Portable hot melt applicator for dispensing, 1/16, p.57

Standard Alliance Industries Inc.:
Tape controlled forging machines (axles) built by Black-Clawson, 4/10, p.98b*

Standard Pressed Steel Co.:
Asymmetrical threads add fatigue strength of bolts, 5/29, p.19 and 6/26, p.81
Titanium locknuts, IE, 6/19, p.88

Standard Steel: See B-L-H

Stanley Works:
Strapping concept pares shipping costs, IE, 6/19, p.88

StarCut Saws Inc.:
Boring tool for heavy work, IE, 1/23, p.71
Diecaster for speed, IE, 4/10, p.104
Gun drill, IE, 1/2, p.161

Stearns Electric Corp.:
Disc brakes, IE, 4/3, p.34

Steel Slitting Co.:
Inverted rotary slitter handles coils, from plates to sheets, 6/12, p.106d*

Stocker & Yale Inc.:
Options for optical measuring scanner, IE, 2/6, p.76

Stokes Plastics: See Pennsalt

Stone Machinery Co.:
Traverse saw, IE, 3/6, p.96

Hoist elevates, tilts heavy barrels, drums, IE, 6/12, p.117

Valley Mould & Iron Corp.:
Plans to merge with Republic Industrial, 5/22, p.32

Valspar Corp.:
White finish inhibits rust, IE, 4/10, p.107

Van Dyck Corp.:
Programmed invention system for new product ideas, 5/8, p.59

Vanadium-Alloys Steel Co.:
Maraging steel, IE, 1/16, p.66

Vickers Inc.:
Exhibits hydraulic components, IE, 5/8, p.82
Fluid power seminar, 6/12, p.23
Hydraulic vane motors, IE, 6/5, p.74
Relief valves redesigned, IE, 1/30, p.70

Visu-Flex Co.:
Microfiche folders speed filing, IE, 5/22, p.88

W

Wagner Electric Corp.:
Merging with Studebaker, 5/22, p.32

Waldron-Hartig: See Midland-Ross

Wallace Expanding Machines Inc.:
Builds bladder forming unit for Whirlpool, 2/27, p.57
Urethane bladder on die, stretch forms shrouds for jet engines, 2/13, p.29

Wallace Supplies Mfg. Co.:
Tip for pipe hole problems, IE, 3/27, p.128

Wang Laboratories:
Time sharing-desk calculator, 4/3, p.25

Warner & Swasey Co.:
Laser for calibrating lathe, 4/3, p.61
Select-a-Coil to sheet conversion system down to button pushing, IE, 4/17, p.99

Warner Electric Brake & Clutch Co.:
Clutch-brake packages, IE, 5/8, p.91
Programmer, NC system, IE, 5/29, p.57

Washington Steel Corp.:
Coil tilter at Houston plant handles hot rolled coils, 6/5, p.60

Waterbury Farrel: See Textron

W E R Industrial Corp.:
Clutch-brake discs, IE, 1/23, p.66

Wean Industries Inc.:
Merger pending with Youngstown Foundry, 1/9, p.24
Merger agreements with McKay Machine and Youngstown Foundry, 3/6, p.32
Mergers o.k.'d, 4/24, p.21

Western Electric Co.:
Fluidizing aids printed circuits, 3/20, p.29

Westinghouse Electric Corp.:
Aerating-mixing unit for polluted water, IE, 4/10, p.108
Automated drilling-gantry type speeds production of surface condensers, 5/8, p.88h
Computer control for three lathes proposed, 5/22, p.19
Computer simulation speeds installation of large machinery, 1/30, p.64c*
DC motors for SSC, IE, 3/13, p.60
Design Center established, 2/27, p.32
Electric car ready, Markette, 4/10, p.25
Fluid Power Div., (new name for Industrial Products Div., 6/26, p.27
Laser welding and machining automated, future dev., 6/5, p.29
Machine Tool Electrification Forum address: What new technologies offer, 6/5, p.64h
Permanent magnet motor, 200 hp, IE, 6/12, p.113
Resistance measurements with automatic probe, 6/12, p.29
TV 1-man studio, classroom instruction, 2/6, p.21
Welder uses 12 in. economy wire spools, IE, 5/8, p.97

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment*

Wheelabrator Corp.:
Pulsed coolant drilling, Balcrank Div., 5/8, p.85

Wheeling Steel Corp.:
AID contract, galvanized sheet, 2/13, p.32
Financial problems reviewed for stockholders by Maxwell, new chairman, 5/8, p.23
Training for computerized steelmaking, Steubenville plant, 5/22, p.64

Whirlpool Corp.:
Bladder forming unit for laundry dryer drums, 2/27, p.57
Rooftop ovens solve space problems: Flowchart of Evansville painting facilities, 3/27, p.74

Whistler & Sons Inc., S. B.:
Perforating unit for magnetic parts, IE, 4/17, p.100

White Consolidated Industries Inc.:
Buys Lees-Bradner, 3/6, p.32

Whitney Corp., W. A.:
Duplicator press, IE, 4/3, p.79
NC panelmaster, punching-notching, IE, 2/6, p.74 and 5/15, p.65

Whitney-Jensen:
Portable hydraulic punch, IE, 2/27, p.82

Whittaker Corp.:
Aircraft fuel device uses plastics, 2/20, p.29
Buys titanium presses, 1/2, p.32

Williams & Co.:
Control features of plasma arc torch cutting, 2/27, p.79

Wilson Inc., Thomas C.:
Pneumatic die grinder, IE, 3/27, p.134

Winsmith Div.: See UMC Industries

Wyman-Gordon Co.:
Carter: Better government-industry dialogue in defense planning, 5/1, p.47
Titanium casting method aids forgings, 3/6, p.23
Tough dies to forge aircraft wing pivot hinges, cover pic., 4/17, p.53

X Y Z

Xerox Corp.:
Computer service locates doctoral dissertations, IE, 5/22, p.87
Duplicating device copies, reduces data, 3/6, p.21

Yard-Man Inc.:
Diecasting hub friction ring successes, 2/27, p.79

Yoder Co.:
Y-line series roll forming machines, IE, 6/26, p.79

Young Machinery Co. Inc.:
Dust collector-filter, reverse cleaning, IE, 2/13, p.100

Youngstown Foundry & Machine Co.:
Merger plans with Wean, 1/9, p.24; made a Wean subsidiary, 4/24, p.21

Youngstown Sheet & Tube Co.:
Acquiring Van Huffel Tube, 1/23, p.32
